BUILT-IN PROTECTION
FOUNDED ON INNOVATION

Microban® is the global leader in antimicrobial treatments and odor control solutions. Our proactive systems work to create cleaner, fresher and more durable products by inhibiting the growth of damaging microbes or neutralizing unpleasant odors.

Globally acknowledged as an Industry Trustmark, the Microban® brand is utilized by 250+ companies worldwide and is proudly incorporated into more than 1,000 products in over 30 countries.

ANTIMICROBIAL TECHNOLOGY

Microban® antimicrobial protection works to inhibit the growth of bacteria, mold, mildew and fungi. Integrated at the stage of manufacture, our technologies remain present and active for the expected lifetime of a product or surface.

Effective against a broad spectrum of stain, odor and illness-causing bacteria by up to 99.99%

Why Choose Us?
BECOMING A PARTNER

As the world leader in antimicrobial treatments and odor control solutions, Microban® innovations don’t begin and end with our technology portfolio. Official Microban® partners benefit from an entire suite of turnkey support services, ranging from regulatory and technical, to sales and marketing.

EXCLUSIVE ACCESS TO:
- Dedicated account manager
- 360 degree technical support
- Claims language guidance
- Marketing & social media support
- Onsite sales training
- Trade show planning
- Online partner portal
- Cross-partner networking opportunities
- Quality control management
- Product development assistance

TREATABLE MATERIALS

Microban® technologies are suitable for integration into almost any material type, including:

- Plastics
- Coatings
- Textiles
- Ceramics
- Laminates
- Paper
- Concrete
- Metals
- Foam

ODOR CONTROL SOLUTIONS

Microban® odor control solutions prevent the build-up of unpleasant odors in textiles, keeping them cleaner and fresher for longer. The technologies can be applied in a wide variety of common fabric types using standard methods like exhaustion and padding, or as a topical treatment.

Benefits:
- Does not affect color fastness, texture or moisture management of textiles
- Prevents sweat and moisture from affecting the freshness of products such as footwear, athletic gear and sportswear
- Prevents odor formation and mildew growth in footwear, protective gear, shower curtains, towels and a range of other products
- Eliminates odor during use and in-between washings
- Provides enduring protection that distinguishes the product from those of competitors

Proven to increase the number of uses before a product needs to be laundered
