Negative Review & Photo Removal

The Consumer Fusion team works with the review directories on your behalf to get them to remove inappropriate and illegitimate negative reviews about your business. We dispute the reviews so you have more time to manage your brand!

Automated Review Responses

With Consumer Fusion, you can automate and control your brand's review responses with auto rotating templates that respond within 24hrs of a new review. Dynamic fields allow for the set up of one template across multiple locations. Review responses are a great way to include keywords and categories to improve your local search ranking.

Real Time Reviews & Alerts

Consumer Fusion aggregates all of your reviews online and displays them in one easy to use place. Set up email and text alerts to notify you every time you get a new review!

Tools to Generate Positive Reviews

Send review requests to your customers easily with the Consumer Fusion dashboard or mobile app. A branded image with your review requests helps to increase the number of new reviews across the review sites you care about the most.
