Conversion Rate Improvement

### Speed & Conversions

Visitors are at least **24% less likely to abandon** a loading webpage that has good Core Web Vitals. Render Better optimizes CWVs to provide a **faster experience that converts more customers**.

### Increased Ranking

Google favors websites with better web performance. Render Better improves your Core Web Vitals, so you're more likely to **rank higher in search results and be found by new customers**.

### Instant Results

**No code changes, just point your domain to Render Better.** Your site will load faster and perform better for every visitor. If you're not satisfied, simply point your domain back with a few clicks.

“ We're constantly updating or changing our site, that might be one of the most seamless parts of Render Better... there are just no issues.
