# CUSTOMISED FREIGHT SOLUTIONS

*AN END-TO-END SOLUTION*

The story of CFS started in 2006 when Damien White identified a gap in the Transport and Logistics market for customising freight solutions for companies. There was a need for more pragmatic, service-focused providers who were willing to partner and grow with businesses.

Since then, this gap has been validated through long-standing partnerships across industries throughout Australia.

With a hand-picked team and dedicated leaders within our business, our passion for exceeding expectations and delivering a unique and personable experience for our clients is stronger than ever.
