Our "Sweet Spot"

How we like to work

1. Start by taking a step back

Analyzing the current landscape and ecosystem and ensuring a robust future architecture by aligning with business stakeholders. Start with a pilot based on the identified use-case & architecture.

2. Accelerate using proven solutions if possible

Consider speeding up development by leveraging pre-built solutions to address business domains and processes. This way, reduce time to market and guarantee best-practices

3. Coach on the job & co-develop

Coaching and co-development are part of our core values. Our goal is to coach internal teams to take full ownership of project, combined with our advanced training academy.

How is element61 different?

Our experience & expertise

- 🔗 **Belgium's most experienced team** with 140+ experts in Analytics today on Microsoft Azure, Power BI & beyond
- 🔗 One of the **first certified Fabric Featured Partners**
- 🔗 The first "Double" **Specialized Partner at Microsoft** – i.e., Analytics on Azure + AI & Machine Learning on Azure

sharing experience & expertise

Focus on coaching & co-development

- 🔗 We firmly believe in **educating** and **coaching** your teams
- 🔗 We insist that the solution we build is guaranteed **to be maintained by your internal teams.**

Focus on projects with a clear methodology

- 🔗 We have a **resolute focus on projects** & no staffing
- 🔗 We are **known for advisory & tackling complex projects** and successfully completing them
- 🔗 We have the **experience and methodology** to tackle large and complex projects with many stakeholders and visibility

We can support you in the end-to-end Analytics & AI Ecosystem
