INTEGRATED CYBERSECURITY SOLUTIONS

RICHEY MAY | Cyber

CYBERSECURITY ADVISORY

Richey May offers a full range of Cybersecurity Advisory Services including vCISO, Maturity Assessments and Roadmaps to align with NIST CSF, CIS, ISO 27001, and more. Cloud Security Assessments analyze your policies and procedures regarding your Cloud and SaaS usage, ensuring proper controls are in place. We can also assist with Incident Response Plans and Playbooks to better prepare you for an incident.

THREAT MANAGEMENT

Richey May provides full Penetration Testing Services for your Applications, Cloud, Network, and Physical Security. These services provide you with an attacker's viewpoint of your environment, highlighting vulnerabilities that have a potential for exploitation, and showing you the real-world impact if an attacker were to utilize this method. Valuable recommendations are also provided to help you better secure your environments.

MANAGED SECURITY SERVICES

Richey May partners with industry-leading partners to provide you with a full, dedicated cybersecurity team. We can work together with your IT Team or MSP to collaborate on the security of your organization. We ensure that proper security controls are put in place that protect your business without restricting you from getting your work done.
