

symplytics

Your human-first automation partner for modern teams.

We use AI-powered automation to eliminate repetitive work, connect systems, and give teams back the time to focus on what truly matters.

About n8n & Symplytics

- Human-first automation partner for modern teams
- Official n8n Expert Partner (First in Canada)
- Specialized in training, enablement, and AI adoption
- Experts in low-code orchestration, system integration, and process design
- Delivering real-world automation solutions across North America

- Open-source automation platform for no-code/low-code workflows
- Connects 400+ tools across cloud, on-premise, and API layers
- Enables visual automation with full control and transparency
- Built-in AI nodes and extensibility for custom logic
- Used by startups, enterprises, and governments worldwide

Rooted in Purpose.

Driven by Impact:

We believe automation should empower people, not just replace tasks.

Closing the Gaps:

We solve the inefficiencies of fragmented workflows, helping businesses reach AI's full potential.

Craftsmanship + Innovation:

Deep consulting expertise + modern tech = automations that are intelligent, flexible, and human-centered.

A Flexible, Scalable Team Model

 **Flexible Team Model:**
Senior leadership + trusted partners in Canada, Italy

Powered by Expertise.

Experts at the Core:

25+ years of experience in business intelligence, automation, and AI.

Multicultural DNA:

Bridging **Canada, USA, LATAM And Europe** to offer global insight with local precision.

Human-First Values:

We lead with **collaboration, mentorship, and purpose-driven leadership.**

Lean & Agile:

Small expert teams that scale as your needs evolve.

Modular Services:

Full-cycle: strategy, design, implementation, and continuous optimization.
