ABOUT US

OUR CLIENTS:

PMOBytes® has earned the trust of numerous leading organizations across Qatar and beyond by delivering high-quality project management consulting, implementation, and training services. Our clientele includes prominent entities such as **Ooredoo, QNB, Dukhan Bank, Al Meera, Hamad Medical Corporation, Ministry of Education and Higher Education, Ministry of Interior, Ministry of Transport, Ministry of Communications and Information Technology, QCloud, Cisco, Microsoft**, and many others. This diverse portfolio reflects our proven expertise in supporting both public and private sector organizations with tailored project management solutions, innovative tools, and strategic guidance to achieve operational excellence.

PRODUCT MANAGEMENT SOLUTIONS

QPUNCH - SMART PROJECT MANAGEMENT SOLUTION

PMOBytes is the owner of the product **QPunch - Smart Project Management solution**. QPunch makes project cost and resource tracking easy for enterprises to deliver their projects effectively and efficiently using AI-powered tools. It instantly reports relevant information in real time as projects are progressing and teams are encountering challenges.

QPunch currently has 3000+ subscribers and numerous major organizations using our product to structure their projects in an organized manner, increasing overall efficiencies. Our mission ensures that teams aren't divided into Silos. In other words, planning, execution and reporting are linked in such a way that teams will maintain continuous collaboration.

It's a tool that does it all for all kinds of projects including:

- Portfolio Management
- Program Management
- Project Management
- Task Management

ATLASSIAN - PROJECT MANAGEMENT SOLUTION

PMOBytes is also a **Gold Solution partner** of **Atlassian** to provide professional services for their Cloud and Data Center products, which include **Jira, Confluence, Jira Service Management, Jira Align, Loom, Rovo, Jira Product Discovery, Trello, and BitBucket** etc. We have a dedicated team who are specialized in Atlassian products, and each of them has more than 10 years of professional experience in product support and implementation.

ATLASSIAN JIRA SERVICES

JIRA CLOUD

PMOBytes help organizations unlock the full potential of **Atlassian Jira** by providing end-to-end **consulting, implementation, customization, and training services**. Whether you're adopting Jira for the first time or scaling it across your enterprise, our experts ensure that Jira is tailored to your workflows, integrated with your tools, and optimized for agile project management. From setup and configuration to ongoing support and user enablement, PMOBytes empowers your teams to deliver projects faster, collaborate better, and achieve greater visibility and control.

KEY FEATURES

- Sprint Planning
- Project boards
- Task management
- Project Management
- Dependency management
- Workflows and automation
- Smooth Atlassian Intelligence
- Custom Workflows
- Advanced Reporting & Dashboards
- Roadmaps
- Automation
- Collaboration at Scale

Project Management Office as a Service (PMOaaS)

PMOBytes offers consultancy services to set up a **project management office (PMO)** for organizations that are seeking to establish a formal governance and structure for their project management department. For entities seeking specialized, skilled project managers, we can outsource individuals who have the relevant experience and related qualifications.

We do offer **Project Management services** through our consultants working on your projects full-time or part-time basis on a service model to make them successful and save your costs. All consultants have strong industry experience and are accredited with multiple best practice certifications.

Our mission is to provide enterprises with effective project management resources that will assist them in making their organization and projects successful. We aim to be the best one-stop shop for all project management office needs across the globe. Resources offered will be blended with real-life experience, exploiting different industry standard methodologies.

1. Assessment & Discovery:

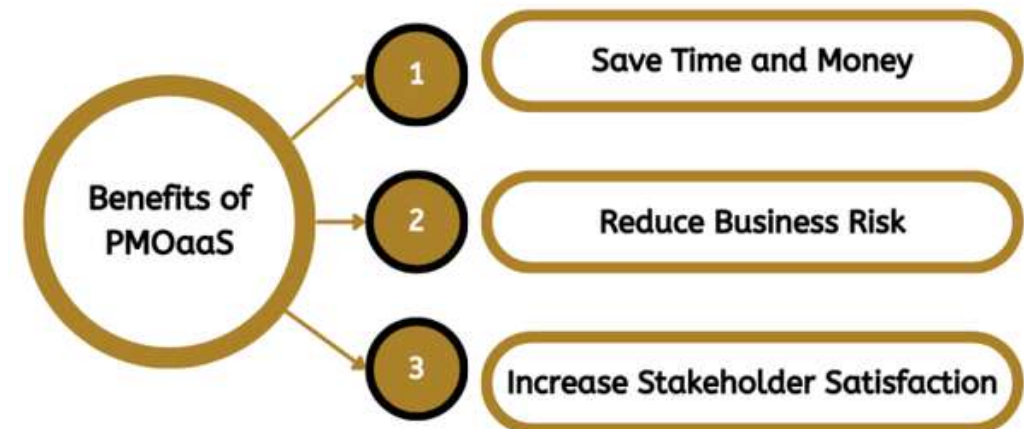

- Gather Information
- Identify Needs
- Define Scope

2. PMO Design & Implementation:

- Develop Structure
- Establish Governance
- Implement Best Practices
- Technology Integration

3. Ongoing Support & Optimization:

- Training & Development
- Performance Monitoring & Reporting
- Continuous Improvement
- Change Management

PMOaaS isn't just a tool – it's a game changer.

TRAINING SERVICES

PROFESSIONAL CERTIFICATION TRAININGS

We deliver our certified courses as an ATO (Authorized Training Organization) of PeopleCert and AXELOS and an ATP (Authorized Training Partner) to PMI. This network of expert trainers and industry-leading providers enables us to deliver an unrivalled schedule of public classroom events, spanning multiple categories – including Project Management, Information Technology, and much, more.

PRODUCT AND SERVICES FEEDBACK

IBRAHIM BERJAOU
THE GROUP

PMOBytes were efficient in identifying, strategizing and implementing Jira Solutions for our company. Their installation, configuration and training services of both the Jira Tempo Planner and Budget were outstanding.

**SENIOR PROJECT
MANAGER**

ISLAMIC RELIEF WORLDWIDE

We have successfully implemented QPunch as our project and program management tool.

With QPunch, we now have better visibility, control, and consolidated reporting across our projects: tracking time, budget, scope, resourcing, and business change management.

SAAD SABAH AL-KUWARI

OOREDOO QATAR

QPunch- Smart Project Management Solution is very well designed and I am in love with the simplicity part of it.

TRAININGS FEEDBACK

IT ENGINEER

MINISTRY OF EDUCATION QATAR

We recently completed Jira and Confluence training with PMOBytes. The sessions were highly practical, engaging, and tailored to our needs. We are extremely satisfied with the value and knowledge gained.

PROJECT DIRECTOR

My PMP training at PMOBytes was excellent. The trainer, Mr. Aamir, explained concepts clearly and practically, using real-world examples that made everything easy to understand. The staff, especially Yaasar, was also very helpful. I highly recommend PMOBytes to anyone preparing for their PMP!

IT SUPPORT LEAD

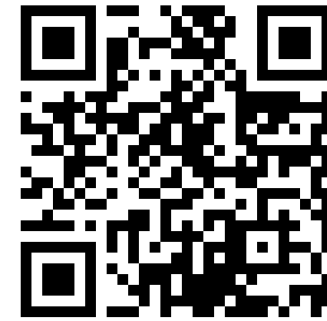

I really liked the course materials, the content, and of course the instructor's knowledge 💡. He was very informative and provided real examples of what ITIL is and the difference between a service request and a support request. I'm just shocked that it was such a quick course I guess good things finish quickly.
