

License Management

Licensing Atlassian tools and add-ons can be complicated and often requires several iterations to find the right fit. Contegix has expertise in the core tools and marketplace, allowing us to take that burden off your shoulders. We can even offer additional options like co-terming expirations, flexible financing terms, dev/temp keys, renewal alerts, and more.

Benefits - Our license management allows you to:

- Streamline procurement as we work directly with Atlassian on a custom solution
- Improve budgeting by syncing license expiration dates (co-terming)
- Gain easy access to development and temporary license keys
- Spread out payment with flexible financing not offered by Atlassian
- Access reliable expert advice for issues or changes as your business grows
- Rest assured that your licenses are up-to-date with renewal alerts

Will this help me? - If you are currently purchasing licenses directly from Atlassian or using a vendor that does not offer the flexibility and assurance we do, contact your Contegix representative today to find out how we can make license management easier for your business.

About Contegix

At Contegix, we empower digital collaboration for a digital workforce. We offer full-stack Atlassian solutions that help organizations quickly organize, streamline, and deploy Atlassian to hundreds or thousands of users. We are experts in SAFe, Agile, and ITSM and outpace other service providers with our iterative approach. Each of our engineers is 100% Atlassian Certified, and we are ready to help with your strategic planning and design as well as the technical engineering work.
