

# The Matlen Silver Difference

We are ranked among the top 20 staffing agencies in the United States.

“We have worked with Matlen Silver for many years and they have consistently supported our projects with amazing consultants.

Matlen Silver clearly cares deeply about both their clients and their consultants, and they are determined to ensure the right fit for each.”

— Fortune 500 Company

## We never stop the search process for IT talent

As a trusted IT Staffing Services provider, our approach to on-demand staff supplementation is results-driven.

Business leaders realize that maintaining technology advancement creates a competitive advantage. The talent pool to fill the void has become increasingly more difficult to find. Matlen Silver ensures your needs for the most experienced and qualified resources will never see a shortage. It all begins with your single point of contact—your lead Matlen Silver IT talent expert for the entire engagement. Your partner becomes ingrained in your hiring goals and then rallies a team of specialists around your IT staffing needs for a full-court press on delivering remarkable talent results.

## What sets us apart

- Our team approach to onboarding, consultant care and retention specialists who are dedicated to ensuring we exceed expectations across our entire engagement lifecycle. We have an average of 16 Matlen Silver experts on a client's team at any given time.
- Our consultants are worth their weight in gold and we treat them as such. With 1500+ total consultants onboarded last year alone, consultants have access to fortune 500 benefits along with consultant care specialists dedicated to them throughout their entire engagement.
- Consultant-focused approach has enabled us to consistently score 100% on client scorecards and compliance audits.
- Our hiring process has been standardized for efficiency with 127 customer-specific workflows and automated document preparation tools and checklists
- We ensure accurate and timely tracking of all engagement processes resulting in consistent on-time starts.

## Innovative tools + Consultant Management Strategy

**Using a cutting edge tech stack allows us to keep in constant contact with our people. Our tech tools allow us to:**

Connect with all consultants on a regular basis utilizing strategic, innovative, and purposeful messaging through various communication methods.

Effectively manage over 1500 consultants while continuously finding and vetting new talent for our clients.

Measure consultant satisfaction while on assignment, ensuring they are pleased with and complete their projects for our clients.

Provide a unique and superior level of service to our consultants.

Obtain feedback quickly and easily using proactive communication.
