C.R.C

CYBER RESILIENCE CONSULTING

In today's threat landscape, point solutions are not enough. Clients require strategic, Board-level guidance to move from a reactive posture to a proactive state of cyber resilience.

Our CRC team (**Cyber Resilience Consulting**) provides clients with critical capabilities, including staff augmentation, independent assurance, and Board-level advisory, with the goal of transforming an organisation's security posture from reactive to resilient.

MAXIMISE YOUR DRATA INVESTMENT

M-GRC DRATA

MANAGED GOVERNANCE RISK AND COMPLIANCE

M-GRC aligns Drata to your exact governance, risk, and compliance goals from day one.

By guiding and implementing the initial setup of Drata, Saepio ensures the platform is aligned with your specific compliance goals and requirements.

Control Scoping & Selection

We build the appropriate scoping and selection of current and possible future requirements (e.g. ISO 27001, SOC 2, DORA, NIS2, GDPR).

Mapping Existing Policies, Controls, & Assets

We help drive full configuration and optimisation of the Drata platform.

Integration with Cloud Environments, Identity Platforms, & Ticketing Systems

We design and maintain a rich repository, utilising tooling such as Azure AD, Okta, Jira, and ServiceNow.

Automated Evidence Collection

We create, build and run automated evidence collection and control monitoring.

FUTURE-PROOF YOUR COMPLIANCE

With Saepio's expert configuration and support, Drata scales as you do.

Expand Drata usage into new entities or business units

As you grow, we can help you extend the use of Drata to cover additional parts of your business, ensuring a consistent compliance approach across the entire enterprise.

Layer in new compliance frameworks (e.g. DORA, NIST CSF, PCI DSS)

We can assist you in integrating new compliance requirements into your Drata platform, allowing you to keep pace with evolving regulatory and industry standards.

Rationalise overlapping controls for efficiency and reduced audit fatigue

We can help streamline your compliance efforts by identifying and consolidating overlapping controls, reducing the burden of maintaining multiple frameworks within Drata.

MAXIMUM EFFICIENCY, MINIMUM STRESS

Compliance that is expertly implemented and effortlessly maintained.

Streamlined Compliance
Saepio's expertise in the Drata platform helps clients automate and centralise their compliance processes, reducing the manual effort and complexity involved.

Reduced Audit Fatigue
By leveraging Drata's continuous monitoring and real-time reporting capabilities, Saepio helps clients stay audit-ready, minimising the disruption and stress of external audits.

Improved Risk Management
Saepio's comprehensive support in implementing and optimising the Drata platform enables clients to gain better visibility into their risk landscape, allowing them to make informed decisions and mitigate risks more effectively.

Increased Efficiency
Saepio's expertise in the Drata GRC platform helps clients streamline their compliance workflows, freeing up valuable resources and allowing them to focus on core business objectives.

Enhanced Reporting and Analytics
Saepio's Drata services, through the Cyber Resilience Consulting practice, comprised of seasoned-CISOs, know what information is needed, to what level, and when, which will equip clients with robust reporting and analytics capabilities, providing valuable insights to support data-driven decision-making and compliance oversight.
