

Catalytics Automation

Business operating systems *with real ROI.*

We build the system a growing service business is missing: one place where intake, approvals, client communication and reporting live, instead of a stack of tools that do not talk to each other.

ZAPIER SILVER SOLUTION PARTNER

Miami, Florida · serving clients across the United States

Every engagement ends with software you own.

The audit produces a plan, the build produces a system, and the handover makes your team self-sufficient.

Three stages, each with something you keep at the end of it.

01

Operations audit

We map how the business actually runs, department by department, and show you where the week goes. It ends in a prioritised roadmap, quick wins first.

02

Build the system

Workflows, SOPs, portals and internal tools, on no-code platforms or hand-coded where the job calls for it. Including HIPAA-compliant builds.

03

Hand it over

Documented well enough to run without us. You own the system outright, and your team operates it.

MEASURED RESULTS

Hours returned to the team.

Every number below came from a finished build, and every client is named on our site.

SCENTHOUND · FRANCHISE

40 hrs/week

Recovered when we automated the client follow-up their team ran by hand. Their COO called it a full-time equivalent.

AFFINITY CARE · HOME CARE

21 days → 8

Caregiver onboarding, on one Airtable platform replacing five disconnected tools. Compliance is audit-ready every day.

NOMADS CAST · AGENCY

99% faster

An 8-step manual onboarding across six tools reduced to zero human steps. Five hours saved per client.

CIRRUS CAPITAL · DEBT CAPITAL

30-40% less

Headcount projected to hit the same growth targets, after a custom CRM and real-time investor matching.

CASA BLUI · LUXURY RETAIL

2x efficiency

Orders, inventory, cross-country logistics, custom builds and installation in one operating system.

C.A. ELLIS · COMPLIANCE

100% routed

Documents move from PandaDoc to Drive automatically, and a dozen provider-clients self-serve their own status.

“

Camilo completely revamped my onboarding sequences and made it run smooth like butter. He's able to accomplish things that other developers told me just wasn't possible.

Founder, Nomads Cast

“

Our work with Catalytics will enable us to reach our 2024 and 2025 revenue and growth targets with 30–40% less headcount than anticipated.

Ryan Ridgway, CEO, Cirrus Capital

“

I would say that the automation has saved us over 40 hours a week of manual work, so a full time equivalent.

Mike Schoen, COO, Scenthound

“

Our internal operations has so many moving pieces. Having one place to visualize and manage everything has been a game changer.

Andrei Newman, CEO, Casa Blui

“

With the help of Catalytics we have been able to restructure our data, interpret it, and build the necessary processes to set our business up for continued growth and expansion.

Leadership team, Affinity Care Minnesota

“

Providers can now see exactly
where their compliance stands,
without calling us.

Candice Ellis, CEO, C.A. Ellis & Associates
