

ECOVOLT365

Our proprietary Ecovolt365 Software seamlessly connects with solar inverters to track energy generation and automatically calculate solar credits daily.

Empowering Your Solar Journey With Global Credits

At Ecovolt365, we help you convert your solar generation into globally sellable credits backed by world-class certifications and audited digital infrastructure.

No manual entries. No guesswork. Just real-time visibility and verified digital value for every unit of solar energy produced.

Highlights:

- ✓ ISO 14064-2 Certified
- ✓ CertiK Audited Blockchain Ecosystem
- ✓ Integration with Circle & Propine
- ✓ Tokenization into USDC-backed Digital Assets

ISO 14064-2 Certification

Your solar credits are verified and recognized worldwide for carbon accounting and sustainability reporting.

CertiK Certification

Blockchain level security ensures your credits are safe, auditable, and eligible for integration with global financial platforms like Circle

Propine Integration

Integrating with Propine, a MAS-regulated custodian, to help sell your solar credits globally at \$20-\$50 per

Regulated Custody

Your digital assets are securely held in Circle-managed wallets or Propine wallets, both approved by the Monetary Authority of Singapore (MAS), ensuring global compliance and safety.

ECOVOLT365

Automated, Accurate & Integrated Solar Credit Management

Our proprietary Ecovolt365 Software seamlessly connects with your solar inverters to track energy generation and automatically calculate solar credits daily.

How It Works:

- ✓ Integrate your inverter(s) with Ecovolt365
- ✓ Automatic daily credit computation
- ✓ Tokenization into USDC-backed credits
