Seamless Global Remittances, Powered by
Stablecoins

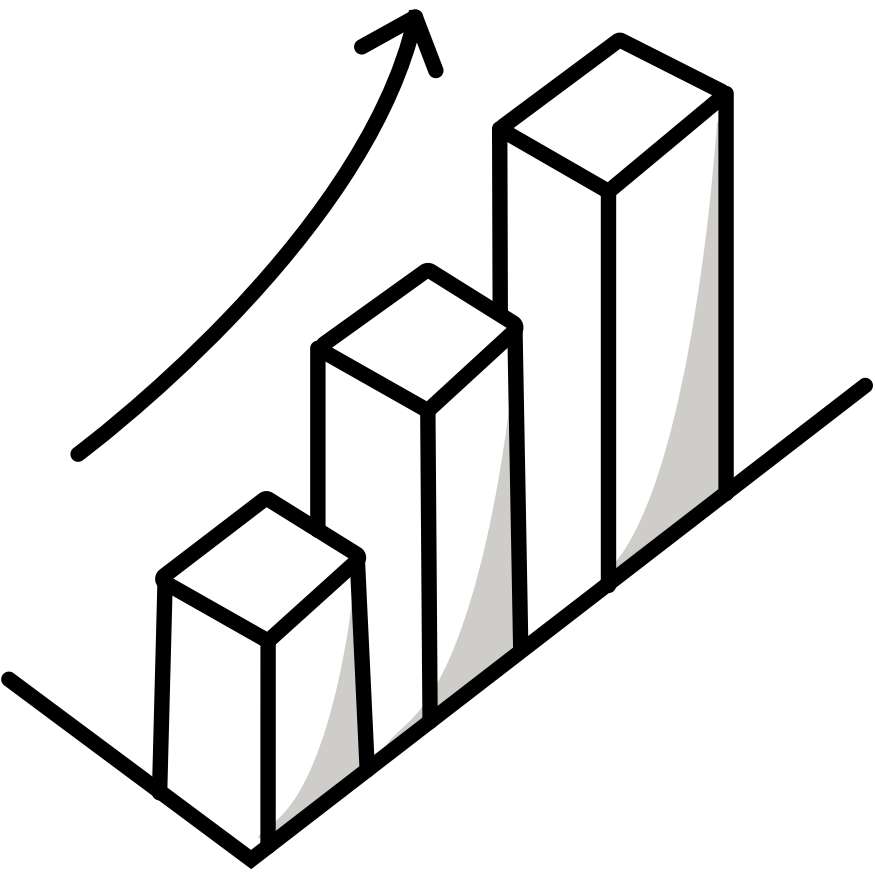

The Growing \$900B+ Global Remittance Opportunity

Expanding Market

High-Growth Corridors

Traditional Remittances

- \$905B+ Global Remittance Market
- \$685B+ sent to Low & Middle-Income Countries
- Growing at 4-6% YoY

- US → India: \$130B+ (Largest Corridor in 2024)
- Middle East → India: \$125B+
- UK → India: \$20B+

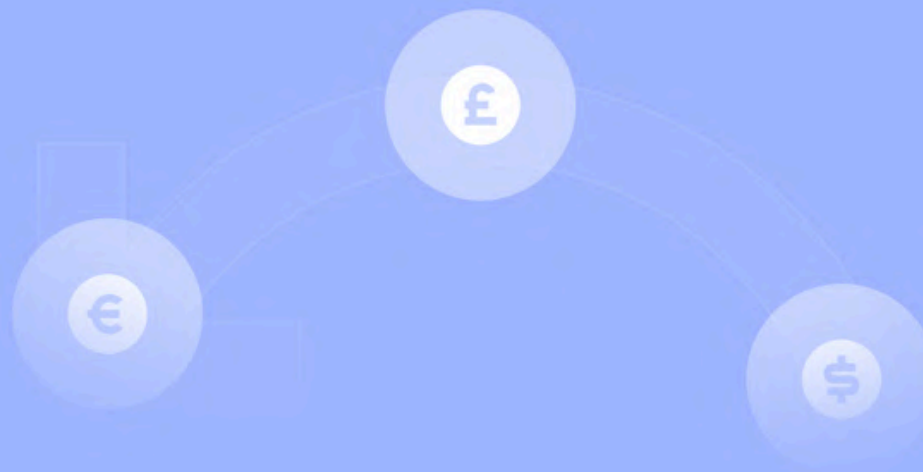

- High fees (5-7% on average)
- Slow transaction speeds
- Compliance and regulatory complexity

Best in class offerings

Saber delivers the most competitive offerings in the market, making your transfers smooth and efficient.

Instant transactions

Best-in-class liquidity

Unbeatable rates

Reinventing Remittances with **Saber Money**

Low-Cost Remittances

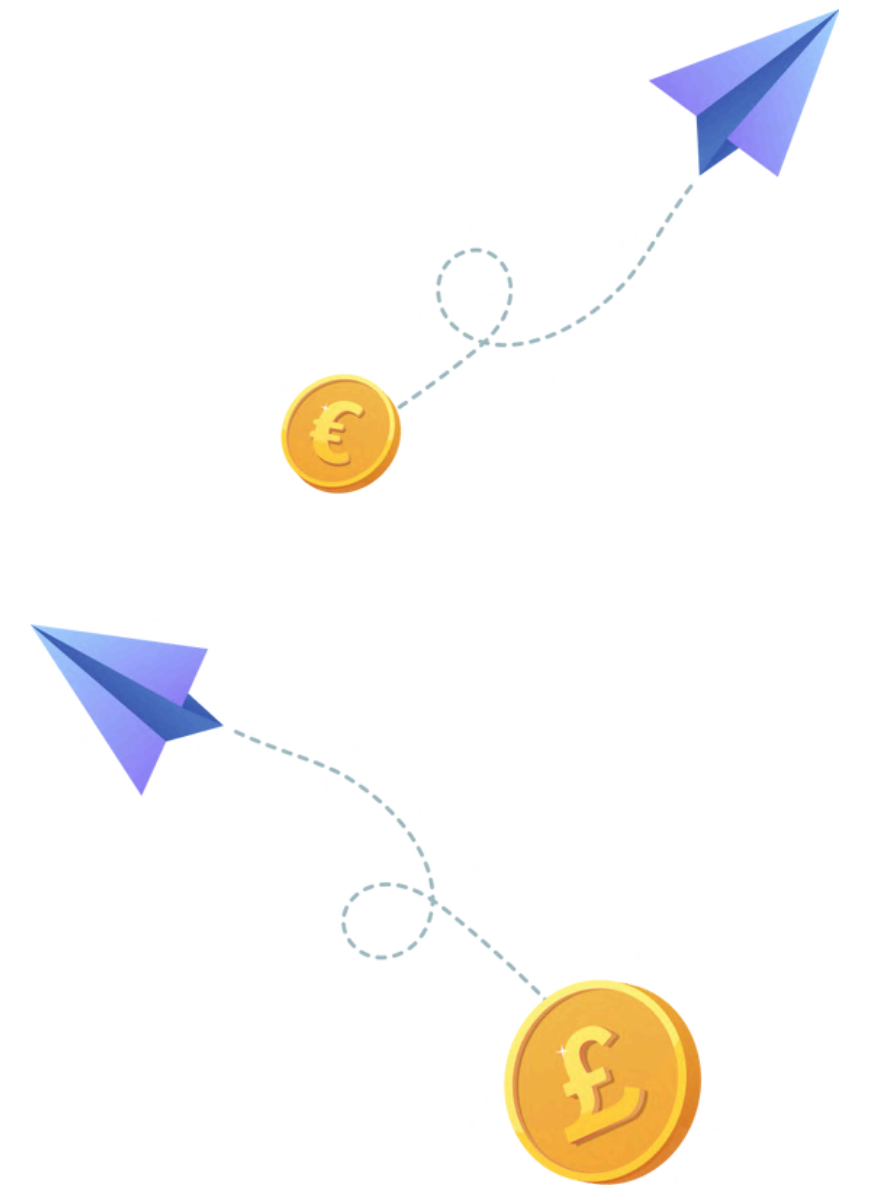

Enables remittance providers to slash fees from 5–7% to under 1%, significantly reducing the cost of cross-border transfers.

Instant Settlements

Delivers funds in minutes, eliminating delays and improving cash flow for both senders and recipients.

Fully Compliant, Enterprise-Ready Infrastructure

Supports AML, KYC, and transaction monitoring tools.

Reinventing Remittances with **Saber Money**

Pre-Funded Payouts

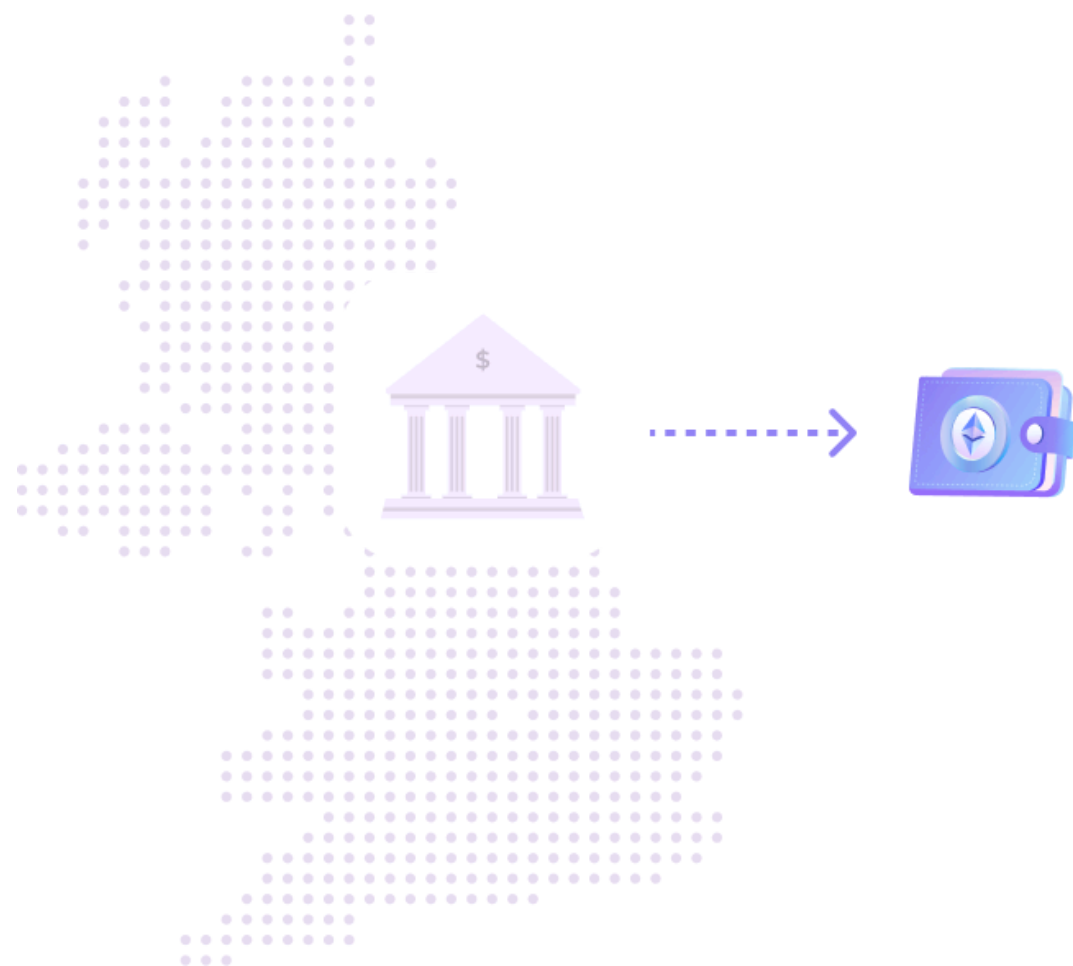

Enable instant settlements with a pre-funded loan structure; Saber maintains the pre-funded pool to support seamless outbound transfers.

Liquidity Efficiency

No need for pre-funded nostro/vostro accounts.

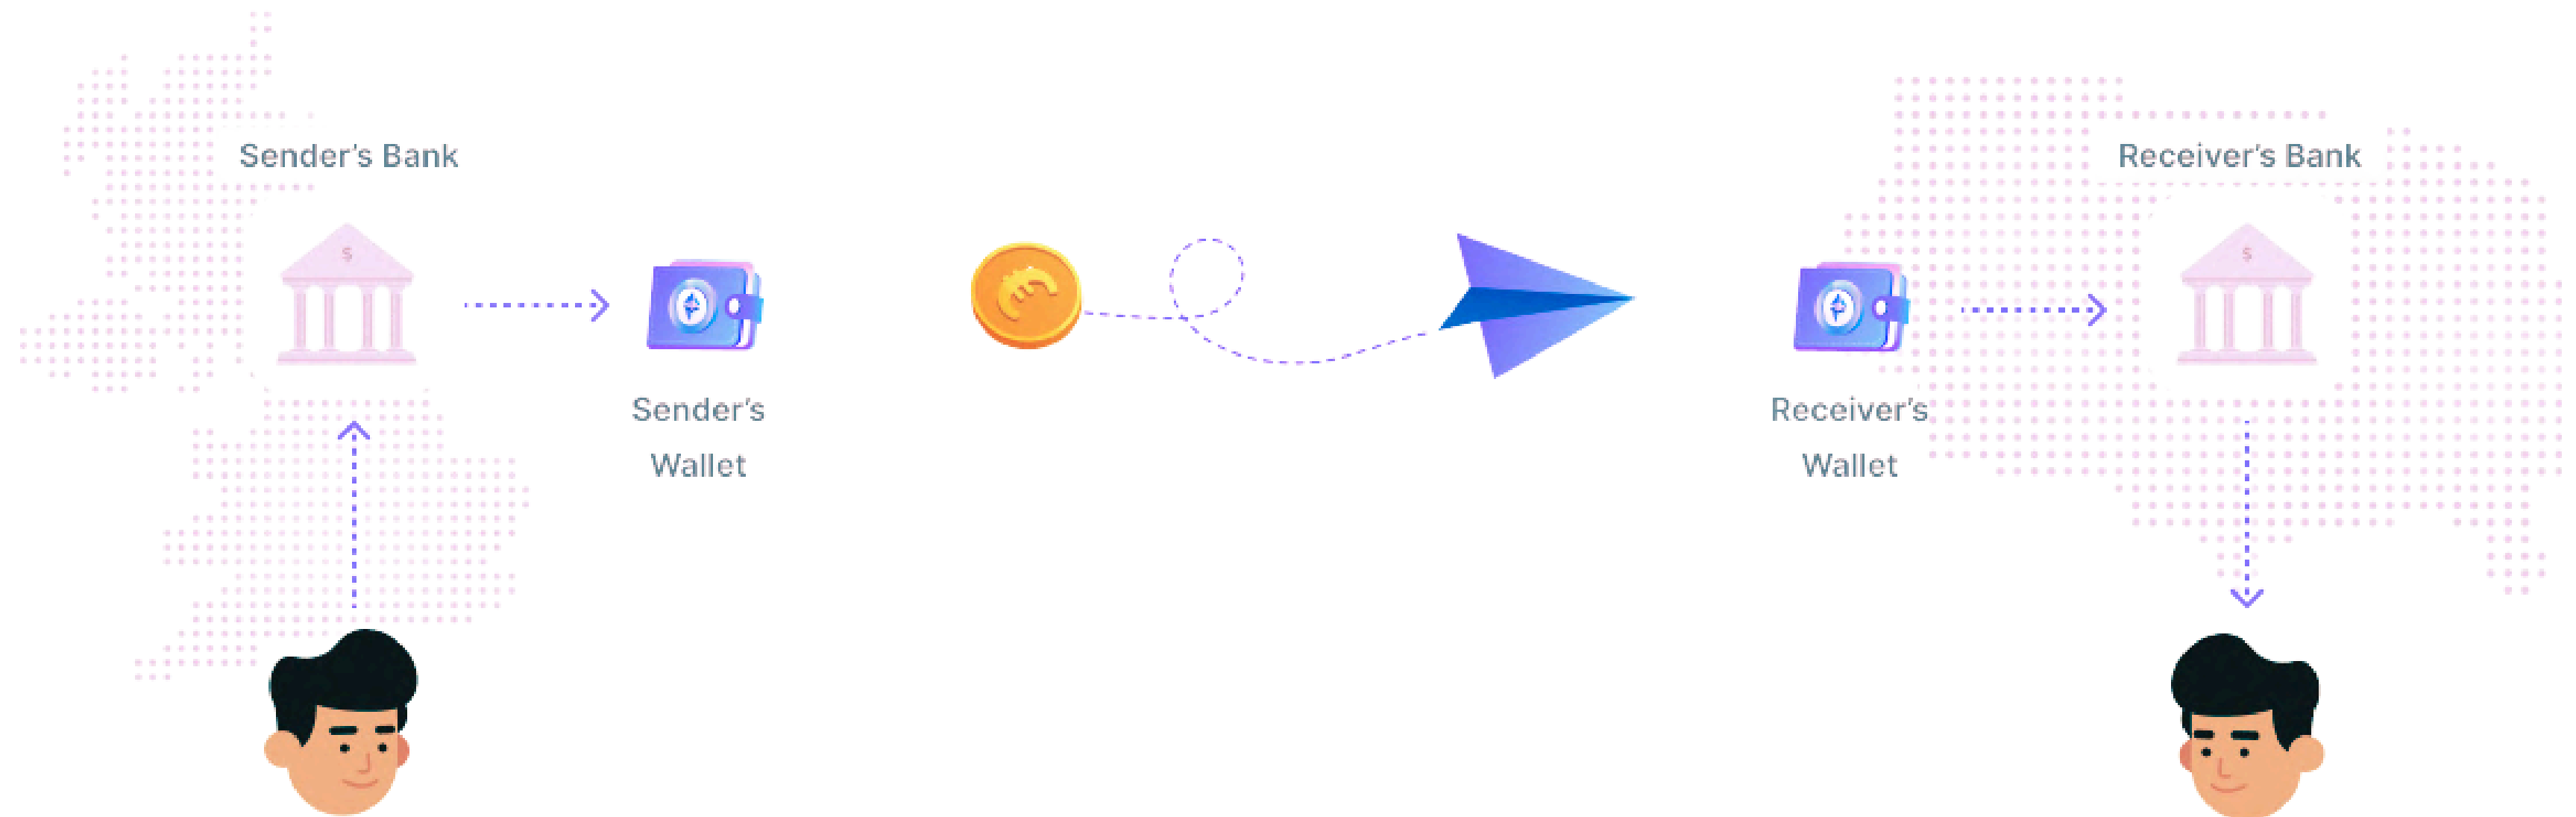

Seamless API Integration

Simple APIs designed for speed, scalability, and minimal engineering effort.

How Saber Works ?

Saber enables fast, reliable cross-border payments, with settlement completed in minutes for a truly **seamless** experience.

Remittance Stack for the Globe – **Saber Money**

ON RAMP AND OFF RAMP

Accept and disburse funds across borders via local currencies.

CONVERT & SETTLE INSTANTLY

Real-time stablecoin-powered conversion and settlement

COMPLY & SCALE

Built-in regulatory compliance for seamless global expansion

SEAMLESS API INTEGRATION

Plug-and-play APIs that reduce technical lift

WORLD-CLASS SUPPORT

Dedicated onboarding and ongoing support from remittance and compliance experts

Ensuring Compliance & Security at Every Step

REGULATORY ADHERENCE

Registered with FIU (in India), ensuring all operations remain compliant.

TAX COMPLIANCE

Automated TDS tax deductions and monthly filing with govt. to simplifying your regulatory and tax obligations.

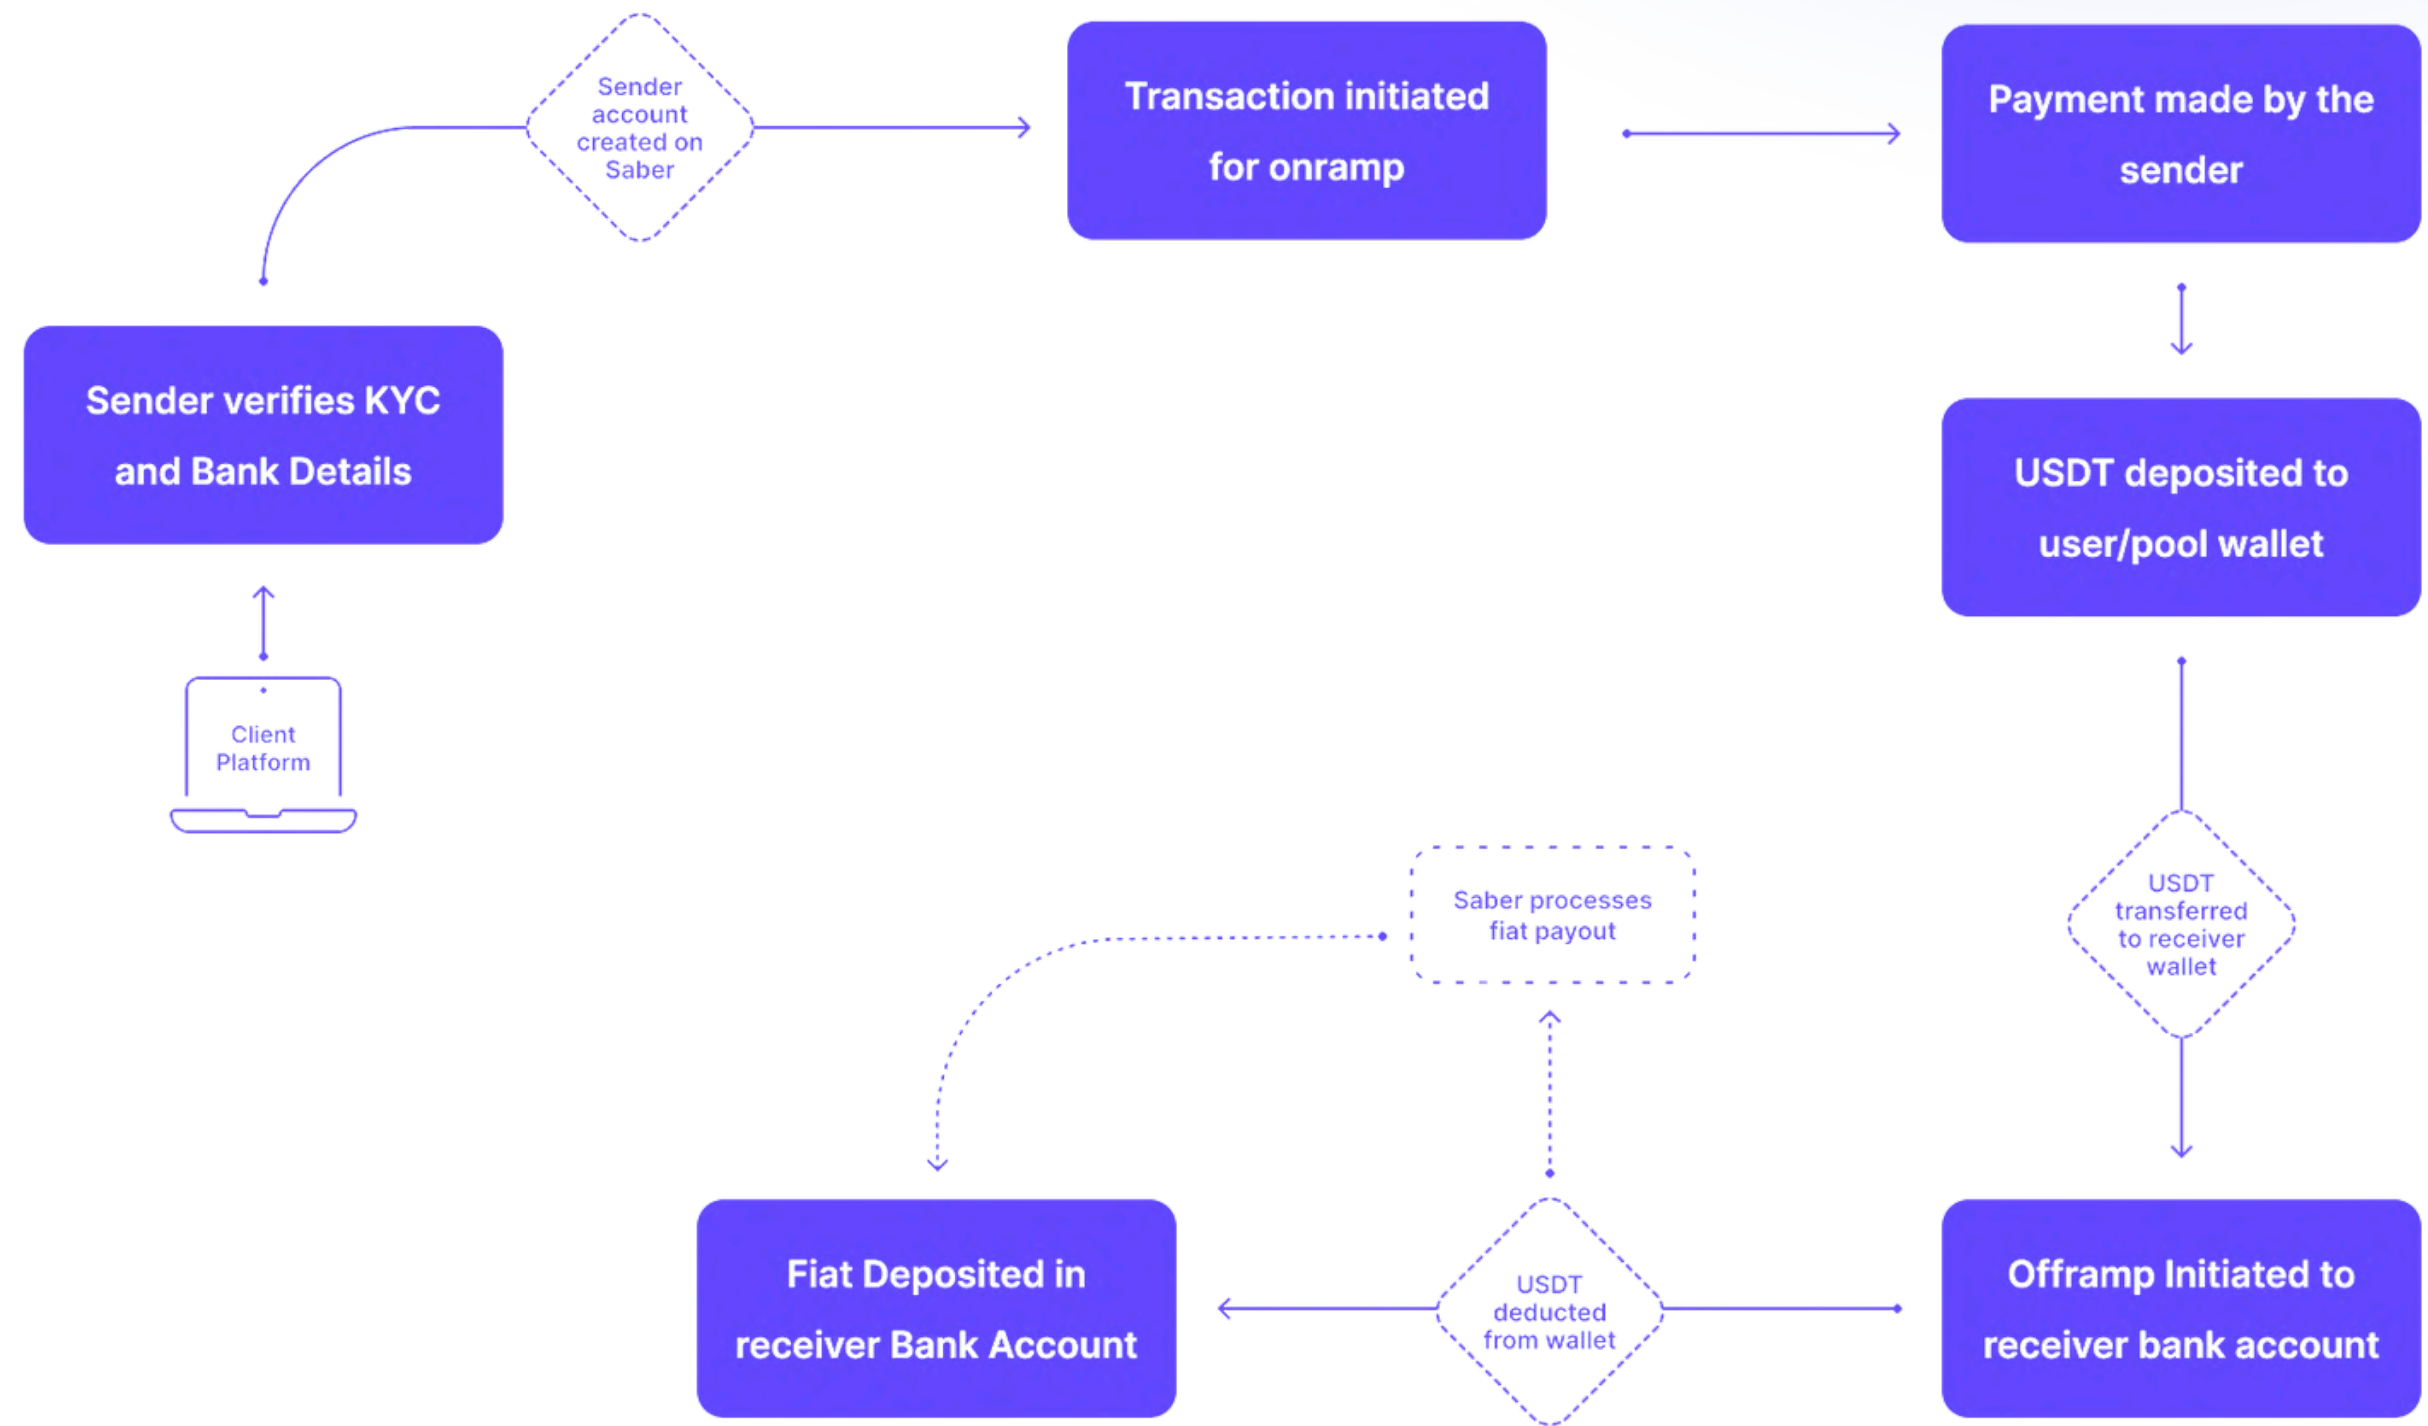

ROBUST RISK MONITORING

Advanced infrastructure for fraud prevention, KYC/AML checks, and transaction monitoring, safeguarding every transaction.

Understanding User Flow

Senders use an on-ramp to purchase stablecoins; recipients convert via an off-ramp to receive funds in their bank accounts.

Saber supports both first-party and third-party payouts for flexible settlement.

Note: In case of third party payouts, where sender and receiver are different, the receiver has to separately complete KYC and bank account verification before the offramp process

Regulatory Arms-Length Integration

TRANSPARENT ACCOUNT CREATION

Each user is provisioned with a unique account under our local licensed entity, ensuring full transparency and regulatory alignment.

DIRECT TRANSACTIONS

FIAT flows directly between the user and our licensed entity, keeping you at an arm's length from all regulatory exposure.

REGULATORY ON/OFF RAMP PROCESS

Since the overhead compliance is taken away by us and you can just focus on making sure that the experience for your users is the best.

Our Scale So Far
