

Semoto Prime.
Your digital asset
boutique.

A *boutique*,
built for
institutional
digital-asset
flows.

Semoto Prime is a Canada-incorporated financial services firm and registered Money Services Business, providing institutional-grade digital asset and cross-border payment infrastructure to corporates, financial institutions, family offices, funds, and high-net-worth clients across five continents.

25+

SERVICE LINES

REGISTERED

Toronto, Ontario, Canada

REGULATORY

FINTRAC MSB — No. C100000994

COVERAGE

Africa · LatAm · Asia · Europe

Multiple *service lines*.

Engage any one line in isolation, or combine them under a single prime account with a single point of contact, SLA, and settlement layer.

01

On / Off Ramp

Convert fiat to digital assets — and back — across 25+ currencies and multiple corridors. T+0 to T+1 settlement.

- USD / GBP / EUR / AED / 20 MORE
- USDT · USDC · BTC · ETH · XRP

02

OTC Execution

OTC execution for large transactions — off-exchange, pre-agreed spreads, no order-book slippage. Built for block size.

- MIN USD 50,000 EQUIV.
- RATE LOCKED AT INSTRUCTION LEVEL

03

Virtual IBAN

Dedicated virtual accounts for institutional flows — GBP, EUR, USD and much more. No pooled accounts, no correspondent friction.

- GBP · EUR · USD + MORE
- SWIFT & SEPA NATIVE

04

Self-Custody Spinout

Non-custodial solutions spun out via a Tier-1 partner. Dedicated wallets delivered with full client sovereignty from day one.

- TIER-1 PARTNER INFRASTRUCTURE
- FULL KEY HANDOVER

05

Settlement Service

Structured, escrow-style settlement layer for transactions where both parties require confirmation before release.

- DUAL-INSTRUCTION RELEASE
- FIAT & DIGITAL SUPPORTED

06

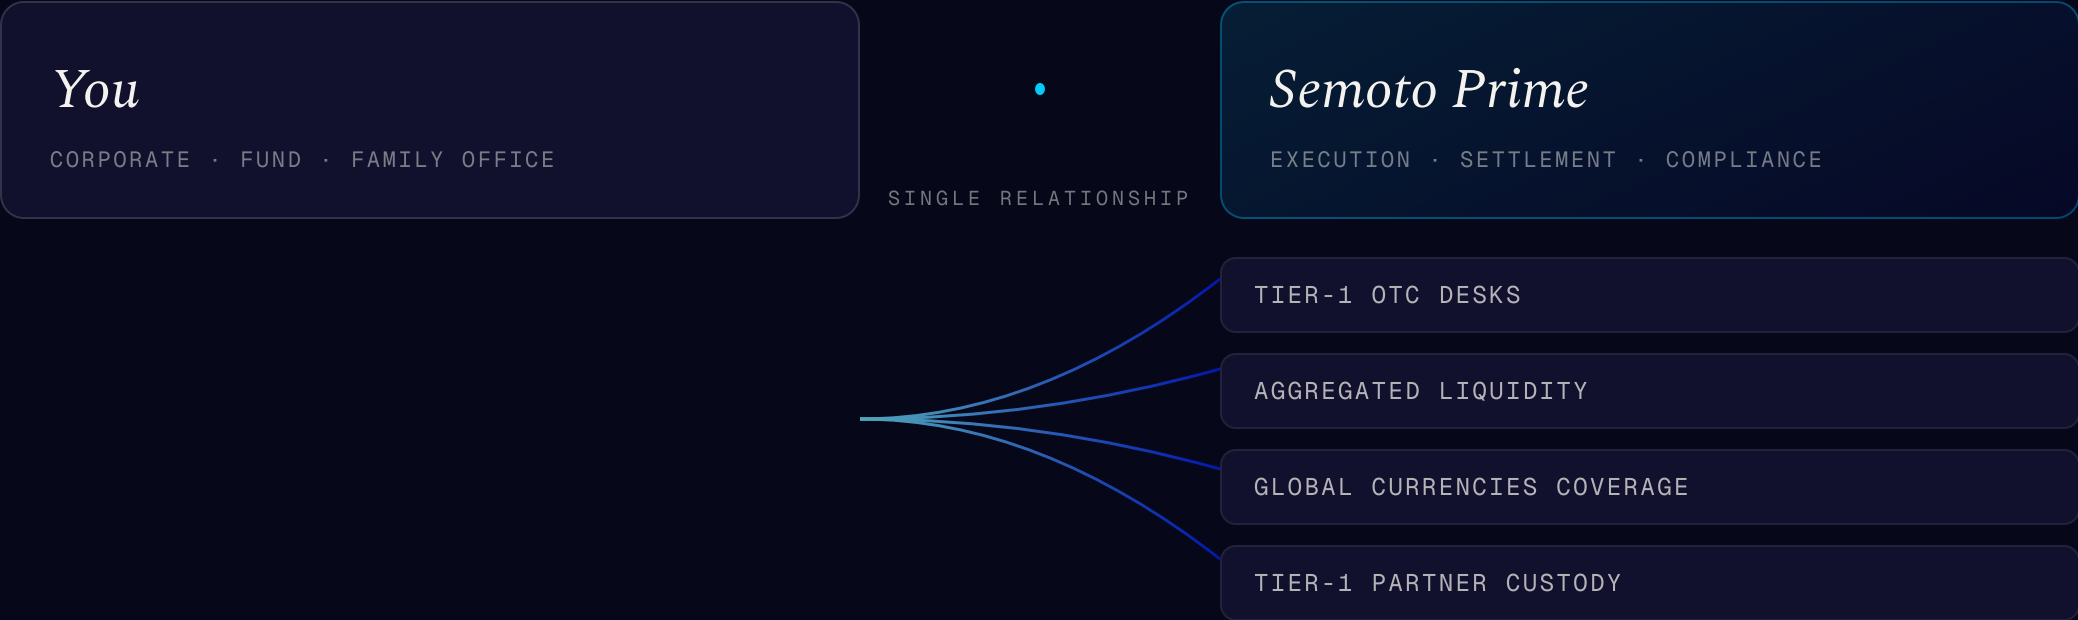

Boutique Service

Pre- and post-trade coverage across structuring, execution, settlement and operational reconciliation — under one mandate.

- PRE-TRADE STRUCTURING
- POST-TRADE COVERAGE

Tier-1 access without Tier-1 requirements.

The prime-of-prime model lets clients tap premium liquidity and settlement infrastructure without the institutional volumes or fragmented relationships that direct Tier-1 access demands.

Institutional DNA

Professional counterparty across compliance, operations and settlement.

Coverage & access

One onboarding unlocks multiple liquidity lines and corridors.

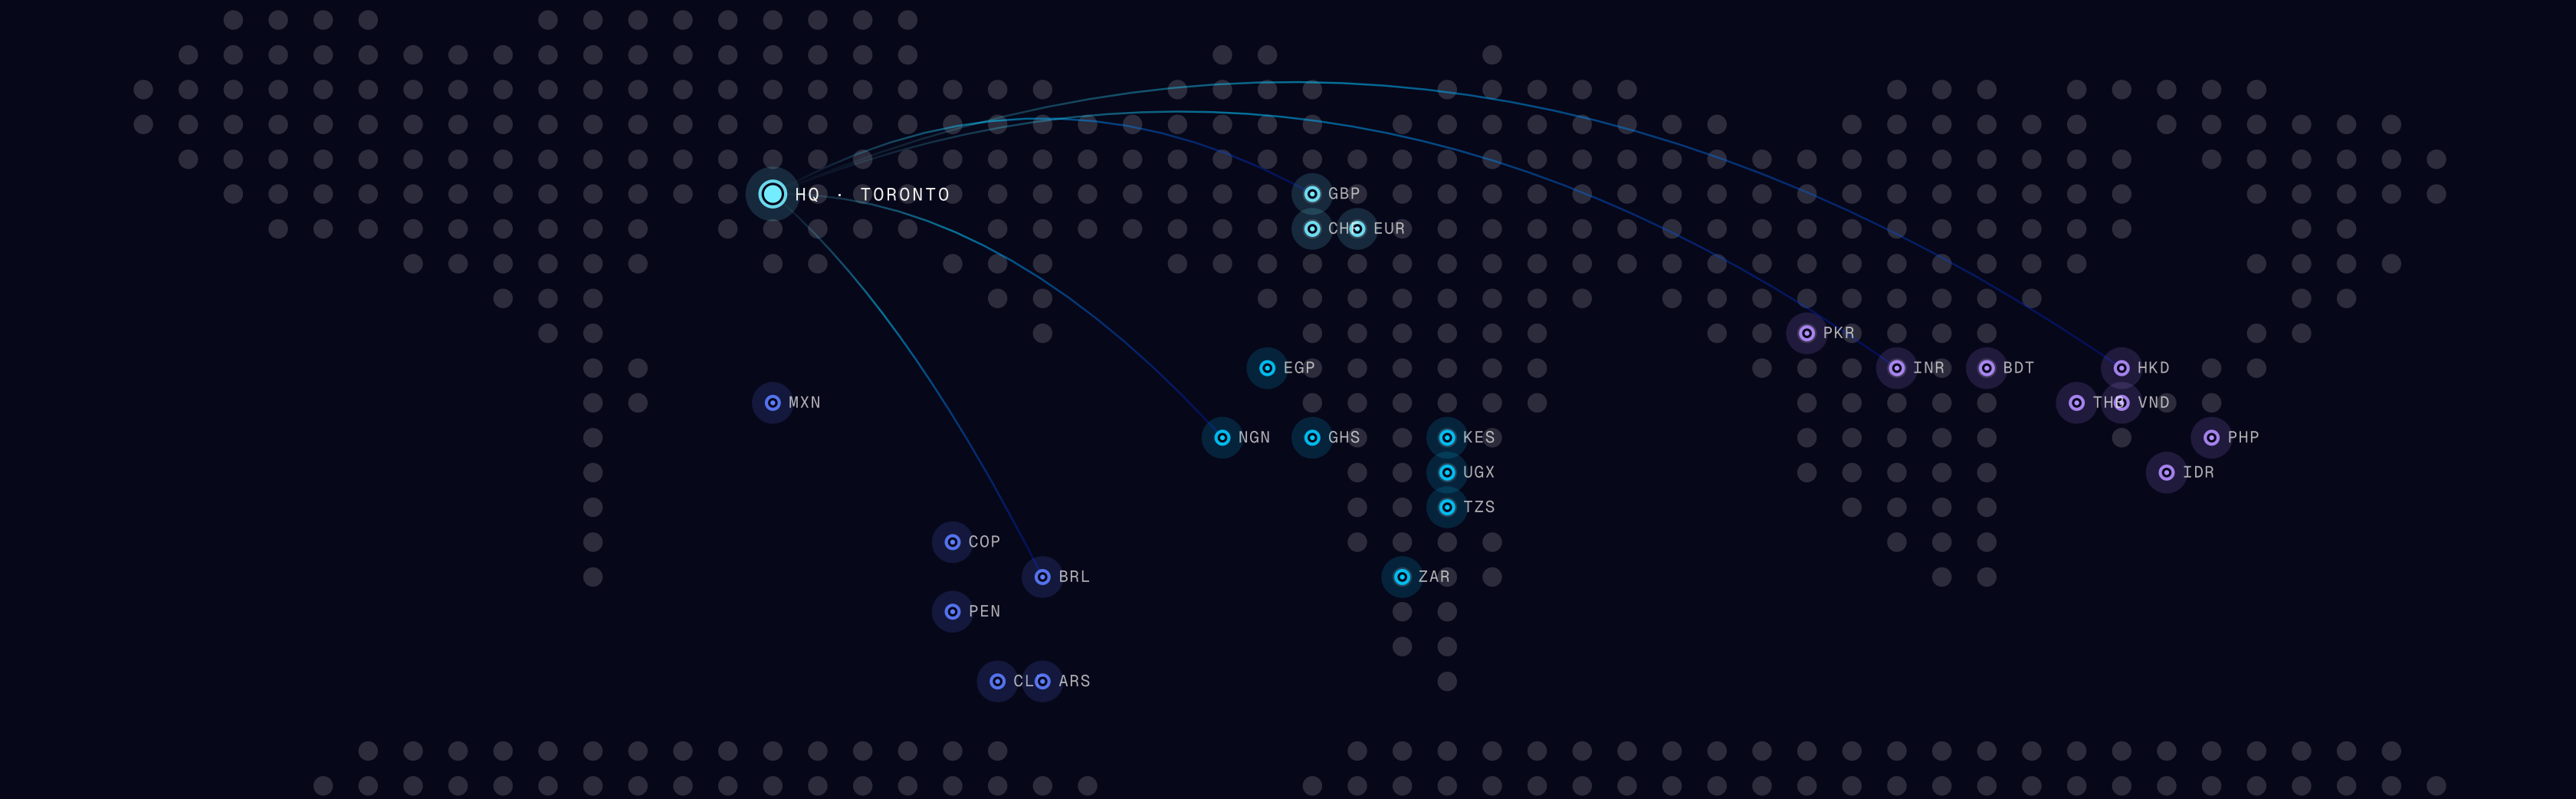

360° support

Pre-trade structuring through post-trade reconciliation.

Pricing optimisation

Aggregated venues, transparent spread.

25+ currencies. Four regions.
One prime account.

● Europe & Global	4 + crypto	● Africa	8 ccy	● Latin America	6 ccy	● Asia	8 ccy
USD · GBP · EUR · CHF · USDT · USDC · BTC · ETH · XRP		NGN · KES · GHS · ZAR · TZS · UGX · XOF · EGP		BRL · MXN · COP · ARS · CLP · PEN		INR · PHP · IDR · BDT · PKR · VND · THB · HKD	

A *personal touch*, at institutional scale.

Every mandate is treated as a bespoke structuring exercise — not a product lookup. Dedicated solutions built around your flow, your jurisdictions, and your counterparties, across multiple service lines under a single professional engagement.

Bespoke by default. Every transaction structured around the client's operational reality — not the other way round.

DEDICATED COVERAGE	A single, senior point of contact across all service lines — accountable for the end-to-end relationship.
BESPOKE STRUCTURING	Complex multi-leg transactions and multi-currency settlement chains handled as custom mandates, not product boxes.
DIRECT DESK ACCESS	Direct lines to trading and operations for time-sensitive execution and settlement matters.
MULTI-LINE ENGAGEMENT	Pre-trade structuring, execution, settlement, and post-trade coverage under one professional mandate.
ONBOARDING	Fast-track institutional KYB/KYC — standard decisioning in three to five business days.
REPORTING	Monthly statements, real-time confirmations, and bespoke reporting on request.

LET'S STRUCTURE YOUR EXECUTION.

Start your journey
in digital asset.
