

CONNECTING WORKERS & ASSETS FOR ENHANCED PRODUCTIVITY & SAFETY

Agile Value Consultants (AVC) is a trusted consulting firm providing strategic advisory and engineering services to enterprises and service providers. Founded on top of over fifteen years of industry experience, AVC specializes in the integration and deployment of cutting-edge technologies, including AI, IoT, Network Automation & Orchestration.

AVC: Pioneering the Future of Connected Intelligence

As a leading IoT solution integrator and proud Cumulocity Pioneer Partner, AVC helps businesses unlock the foundational value of IoT, transforming it into a trusted source of clean, actionable data that fuels AI-driven insights. Our partnership combines Cumulocity's powerful IoT platform with AVC's deep industry expertise to deliver integrated, scalable solutions for construction, manufacturing, and oil & gas sectors where worker productivity and safety are paramount.

A Unified Solution for Connected Workers and Assets

Workforce and asset optimization requires real-time visibility, intelligent insights, and scalable deployment. Cumulocity provides powerful, no-code IoT connectivity, device management, and data integration. Agile Value Consultants (AVC) enhances this by delivering industry-specific expertise, AIoT innovation, and end-to-end implementation—from strategic consulting to customized solution deployment. The result is a comprehensive, ready-to-deploy platform that drives productivity, safety, and operational efficiency across industrial environments.

Solving Critical Business Challenges

- **Workforce Visibility & Safety at Scale:** HR teams struggling with large, distributed workforces gain immediate value from our ready-to-deploy IoT solutions, tested in real-world scenarios across multiple sites.
- **Breaking Down Operational Silos:** Replace fragmented systems with a unified platform that simultaneously manages workers and assets, handling vast amounts of real-time data and transforming it into actionable intelligence.
- **Tailored to Your Unique Needs:** Beyond mainstream use cases, AVC provides end-to-end customization—from consultancy through implementation—ensuring solutions perfectly align with your specific business challenges.

Key Benefits of AVC & Cumulocity

Optimized Workforce Productivity & Safety

Enable data-driven HR decisions that enhance productivity while prioritizing worker safety through realtime monitoring.

Intelligent Asset Management

Gain real-time visibility into mobile and fixed assets with predictive maintenance capabilities that dramatically reduce downtime and optimize efficiency.

Do More with Less

Leverage IoT data to identify key optimization opportunities, improving operational efficiency while reducing costs across your organization.

Business Impact & ROI

Connected Workers

Significant productivity increases and enhanced safety outcomes, with exact improvement percentages tailored to your current HR processes.

Connected Assets

Substantial reduction in downtime and more efficient allocation of shared mobile assets through real-time monitoring and predictive maintenance, delivering measurable cost savings.

Technical Excellence

Expert implementation of mainstream and customized IoT use-cases powered by the Cumulocity platform, from initial consultancy to full deployment, ensuring tailored solutions that address your specific requirements.

Proven Success

The Cumulocity platform is designed to handle large volumes of data for big IoT project deployment. It has transformed the way data is managed, offering real-time analytics, enabling data-driven decisions, and opening up new possibilities beyond real-time location RTLS. We can also integrate the system, the platform with our current systems and applications. This will permit us to reach the full potential of the IoT deployments without disrupting the existing workflow, allowing us to gain the competitive edge in the IoT arena.

– Sahar Sabra, Corporate IT Manager, Arabian Construction Company

Better Together: The Power of Partnership

The AVC-Cumulocity partnership is built on a shared commitment to innovation and pushing the boundaries of IoT possibilities. This strategic collaboration inspires our pioneer spirit, challenging us to expand IoT applications beyond connected workers and assets into new frontiers, continuously enhancing the value we deliver to customers. Together, we create cutting-edge solutions that drive transformation across industries.

About Agile Value Consultants (AVC)

Agile Value Consultants (AVC) is a strategic consulting and engineering firm specializing in AI, IoT, network automation, and orchestration. Backed by over 15 years of ICT expertise, AVC delivers innovative, end-to-end solutions that simplify complex technologies. With offices in Canada and the UAE, AVC serves clients across North America, the GCC, and Europe — helping businesses accelerate transformation through tailored advisory, implementation, and integration services.
