

# Curately.AI

## Recruitment Solutions

**Curately** empowers hiring teams to source, engage, and hire faster with intelligent automation, vast candidate reach, and customizable tools tailored for industries like call centers, light industrial, and healthcare where hiring demands are high.

# Powerful Recruitment Features

## Sourcing Acceleration

### AI Sourcing

Get instant access to over 200 million candidate profiles with Curately's AI Sourcing tool. Recruit candidates right from their social networks and sync them directly to your ATS with Curately's Chrome extension.

## Automation with a Human Touch

### Conversational Chatbot

Curately's chatbot provides immediate, conversational support, answering questions, guiding applications, and keeping candidates engaged through every stage.

### Voice AI Recruiter

Scale your recruiting bandwidth with Maya, Curately's AI voice agent. She converses naturally, understands nuanced responses, validates answers, and is fully customizable. Best of all, she integrates directly into your ATS interface.

## Personalization At Scale

### Personalized Candidate Journeys

Curately's Journeys feature enables custom workflows to keep candidates engaged throughout every stage, increasing conversion rates and delivering a smooth recruiting experience.

### Efficient Recruiting Workflows

Automate repetitive tasks like follow-ups, interview reminders, and onboarding steps, ensuring candidates move seamlessly through each step of the process.

### Automated Interview Scheduling

Forget the back-and-forth with candidates—our tool removes manual actions for interview scheduling, allowing candidates to schedule directly within your availability.

## Powerful Tools

### Customizable CMS

Easily design and schedule engaging email campaigns with our drag-and-drop builder, allowing recruiters to keep candidates informed without any coding.

### Insightful Analytics & Dashboards

Track recruitment metrics with pre-built dashboards that offer data-rich analytical insights, so you can measure and optimize recruiting efforts based on actionable data.
