

We're Raising the IQ of AI

Opptly's AI platform elevates workforce strategies with advanced skills intelligence and taxonomy services. Our direct sourcing solutions provide unmatched speed and accuracy in talent matching, while modernizing the experience for hiring companies, curators, and job seekers.

Unlock the Unlimited Potential of AI.

Our proprietary AI model, trained exclusively on workforce-specific data, combines job descriptions and success profiles with advanced data engineering and machine learning to deliver optimal skills-based matches. Continually evolving and innovating, Opptly's platform supports cutting-edge growth strategies, such as career progression and custom AI models tailored to client-specific needs.

- **AI seeded and trained** for years on workforce-specific data.
- **Skills-based matching** enables consistent outcomes.
- **Seamless, flexible integration hub** provides key efficiencies.
- **Opptly's Talent Community** offers immediate, wide-scale access to talent.
- **Persona-driven applications** empower user experience.
- **Embedded solutions** allow our clients to rapidly expand their offerings by white labeling Opptly's AI technology, boosting their competitive edge and better meeting their customers' needs.
