The Perfect Combination for Better Result

Drive Growth and Efficiency with Stripe's Financial Infrastructure

Integrate Stripe and SAP

Featuring an out-of-the-box integration with SAP S/4HANA and SAP Commerce Cloud.

Businesses using Stripe's optimized checkout suite have seen an average of 10.5% more revenue.

Drive Efficiency in Your Subscription Business with SAP

Unlock efficient operations and empower your sales team with in-SAP control over invoices and subscriptions, all while seamlessly capturing recurring revenue from global customers with flexible pricing.

Rapid & Tailored Global Integration with Stripe

Fast-track your integration with customizable, ready-made components and expand globally with Stripe's 135+ currencies and 45+ local acquiring countries. Elevate and innovate now!

Flexibility and Customer Experience

Offer your customers a wider range of payment options and elevate their experience with Stripe's certified Connector for SAP Digital Payment Add-On, which also provides secure, end-to-end processing and operational efficiencies.

Unified Payments, Highly Automated Backend

The power of Stripe lies in its ability to centralize various payment methods on one platform. This, alongside our payment tracking, automates backend operations like bank reconciliation to a remarkable degree.

Novarto is a software consulting company with 15+ years of proven expertise in providing solutions for eCommerce, Enterprise Resource Planning and Plant Maintenance.
