

JOBSITE INTELLIGENCE SOLUTIONS

that help you build with confidence

Over two thousand customers use Sensera Systems to deliver **safe, secure,** and **successful** jobsite outcomes. Our solar-powered and wirelessly connected solutions are easy to install, use, and scale, protecting you against vandalism and graffiti anytime, anywhere.

With Sensera cameras we are getting day to day updates every day. Asbuilt data is something we never had before. The possibilities are huge. We can correct problems while they are still possible to fix. Planning logistics in ways that we can make real-time decisions because we have the updated information all the time. Better information gives us the possibility to make even greater and better decisions.

– Eric Jacobson, Digital Development Manager, Skanska

Quick to implement (~30 min) and easy to use in the field

Same week shipping available, hassle-free lease or buy options available

Unlimited training and user onboarding
