

CERTIFIED PROCORE EXPERTS

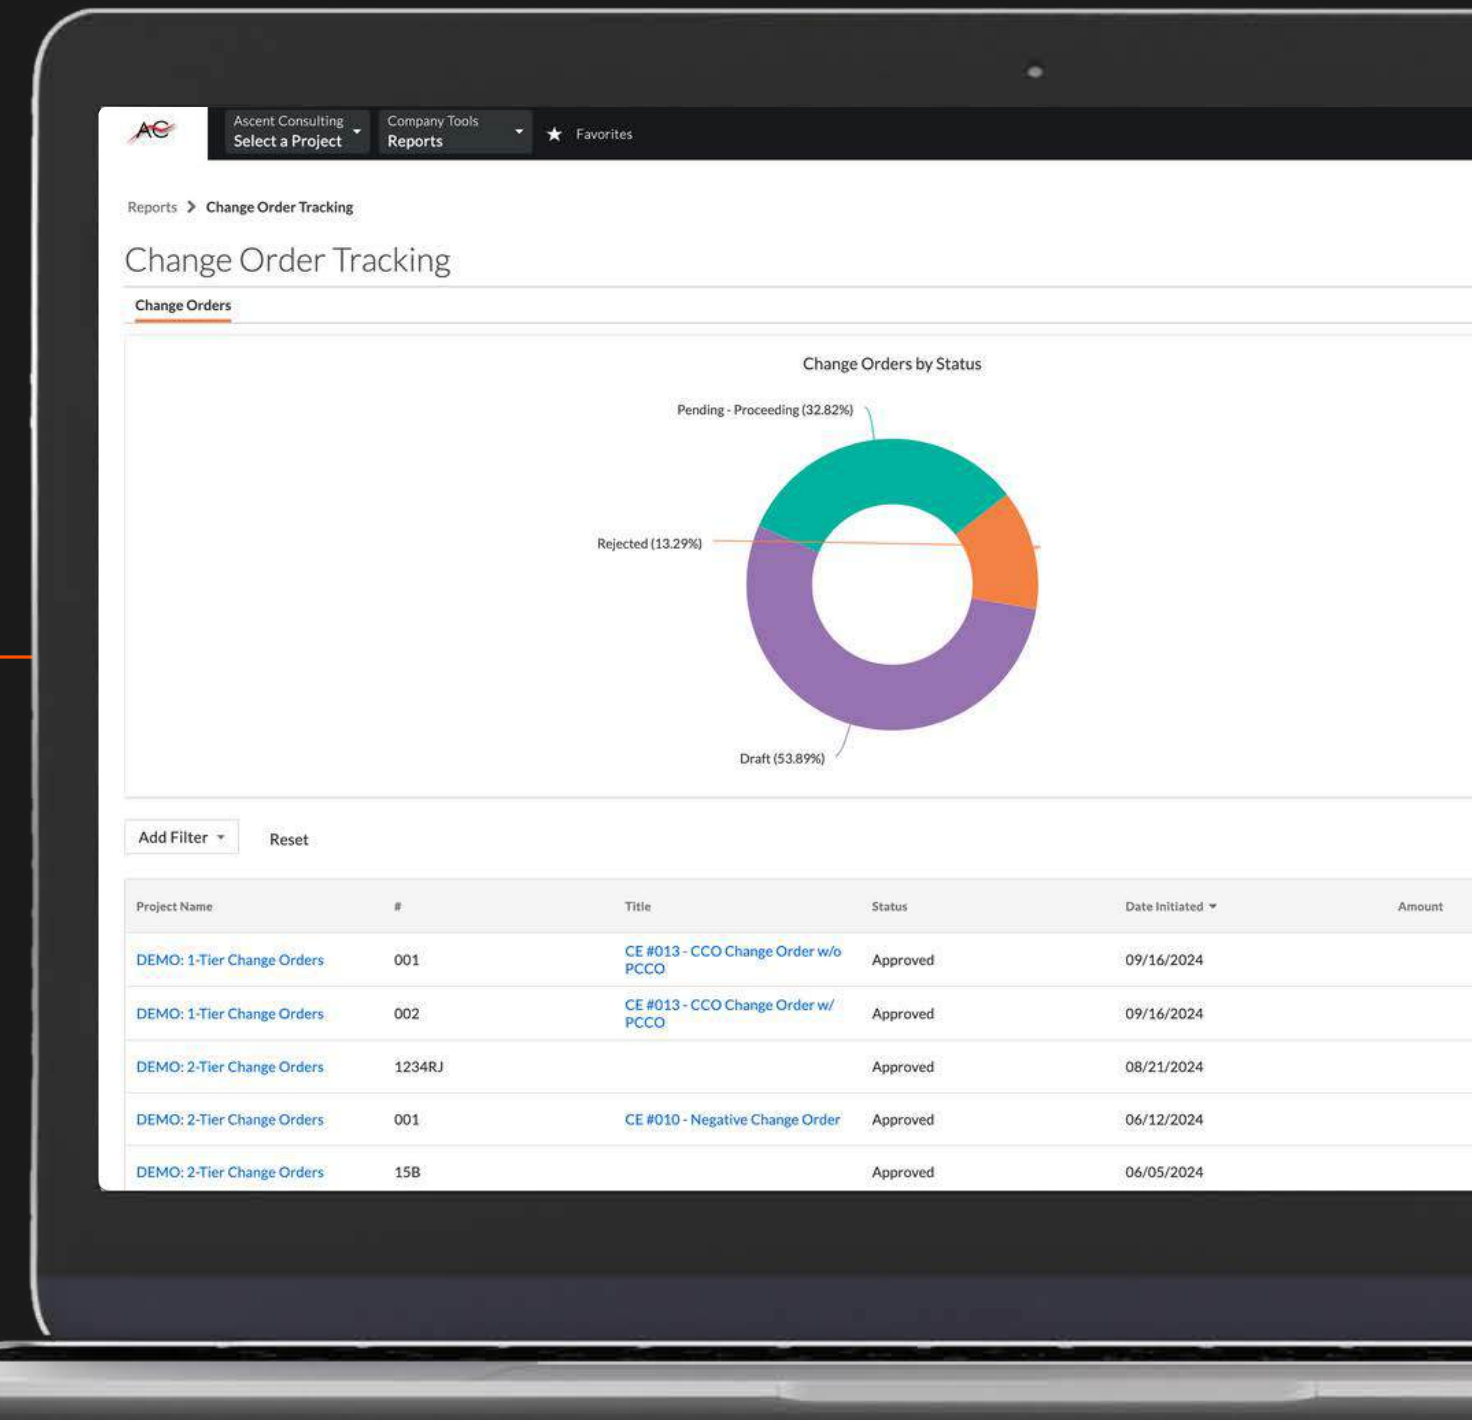

For Your Construction Company

Prepared by
ASCENT CONSULTING

MAKE PROCORE WORK FOR YOU

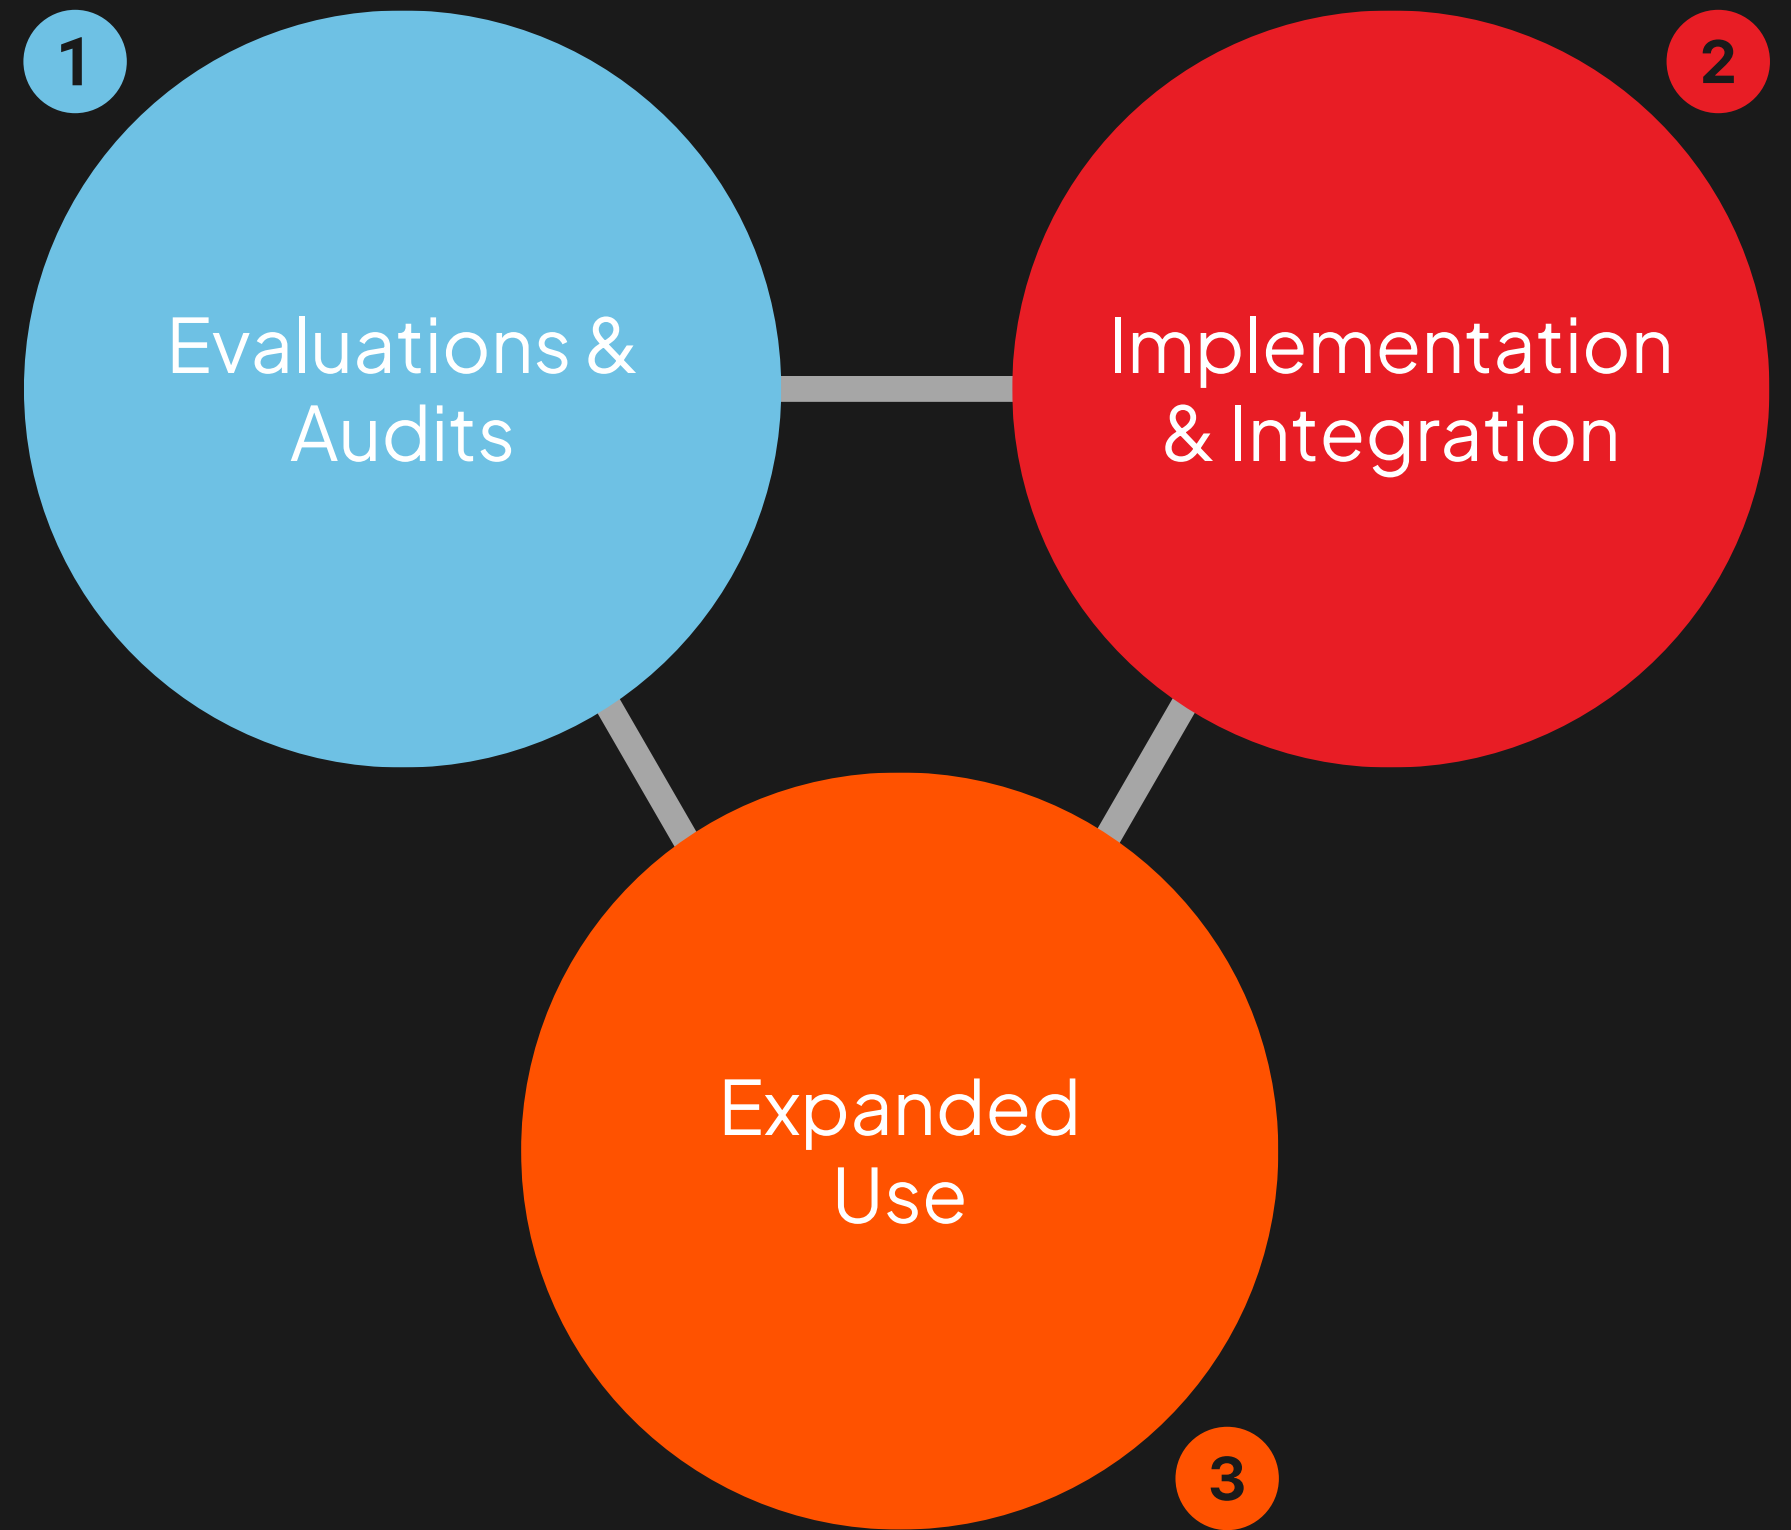

Ascent has extensive experience helping our clients maximize their investment. We also understand that software is just a piece of the puzzle and needs to be integrated with your processes, procedures, and people for maximum benefit.

ASCENT'S PROCORE SERVICES

- + Are you a Procore user that feels like you're not getting full value for your investment?
- + Do you wish your team was using more of Procore's features, but they don't know how?
- + Are you thinking about connecting Procore to your accounting system, but not sure how that will work?

HOW WE HELP

Ascent Consulting has a team of **Certified Procore Consultants** who help construction companies that are:

- Investigating Procore as a potential solution for their company
- Looking for a partner to work with their team through the implementation process
- Desiring on-site training and implementation assistance
- Ready to expand Procore's use and functionality across their organization
- Needing help integrating Procore into their overall business and project management processes

EVALUATIONS & AUDITS

- + Not sure if Procore is right for you?
- + Have Procore but don't think your team is utilizing it effectively?

Ascent can analyze how your business currently operates inside AND outside of Procore and provide actionable strategic recommendations on how to better leverage Procore to meet the current and future needs of your business.

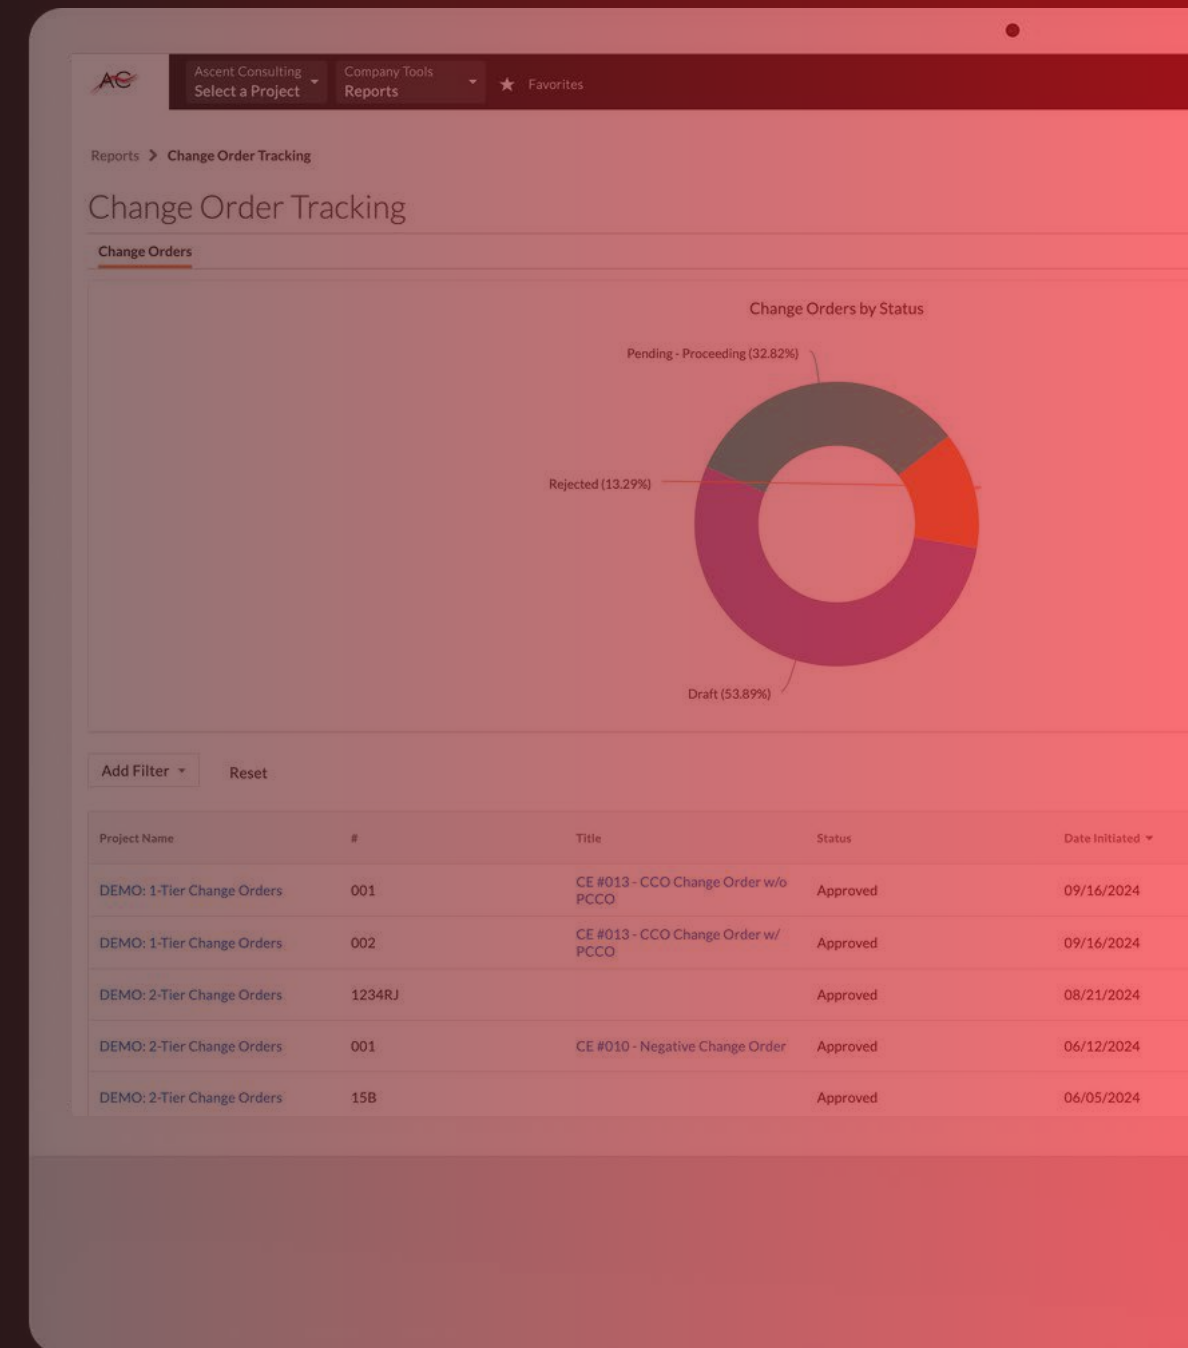

BENEFITS OF STRUCTURED DISCOVERY & PROCORE EVALUATION

- + Access to our demo account: We'll show you Procore's tools and features prior to signing a contract with Procore.
- + A detailed audit of your current software systems and recommendations for improvement.
- + We are not software resellers or distributors.
- + We won't upsell you on software that doesn't fit your vision for improved operational performance or company growth.
- + We are software agnostic and are not financially compensated by any software companies.
- + We are construction business and operations experts who know software

IMPLEMENTATION & INTEGRATION

Ascent's Procore Consultants lead workshops to define how your processes, workflows, and people will use Procore for maximum benefit. Our Consultants also provide group and individual training sessions for your teams, ensuring they know how to use all the tools in your Procore system.

BENEFITS OF ASCENT'S **PROCORE** IMPLEMENTATION & INTEGRATION

- + Work directly with Construction Industry Professionals that understand both Procore and construction processes at a detailed, functional level.
- + Connect Procore to your accounting system with the confidence that it won't 'screw up' your books
- + Quicker adoption and integration of Procore into daily activities through focused training, reference documentation, and training videos tailored specifically for your company.
- + Get Procore's tools, permissions, and workflows set up quickly and correctly for use by all team members.

EXPANDED USE

Ascent's Procore Consultants work with your Project Management, Accounting, and Field teams to define and standardize your company's processes and procedures that may be performed using Procore tools, then train them how to use them effectively.

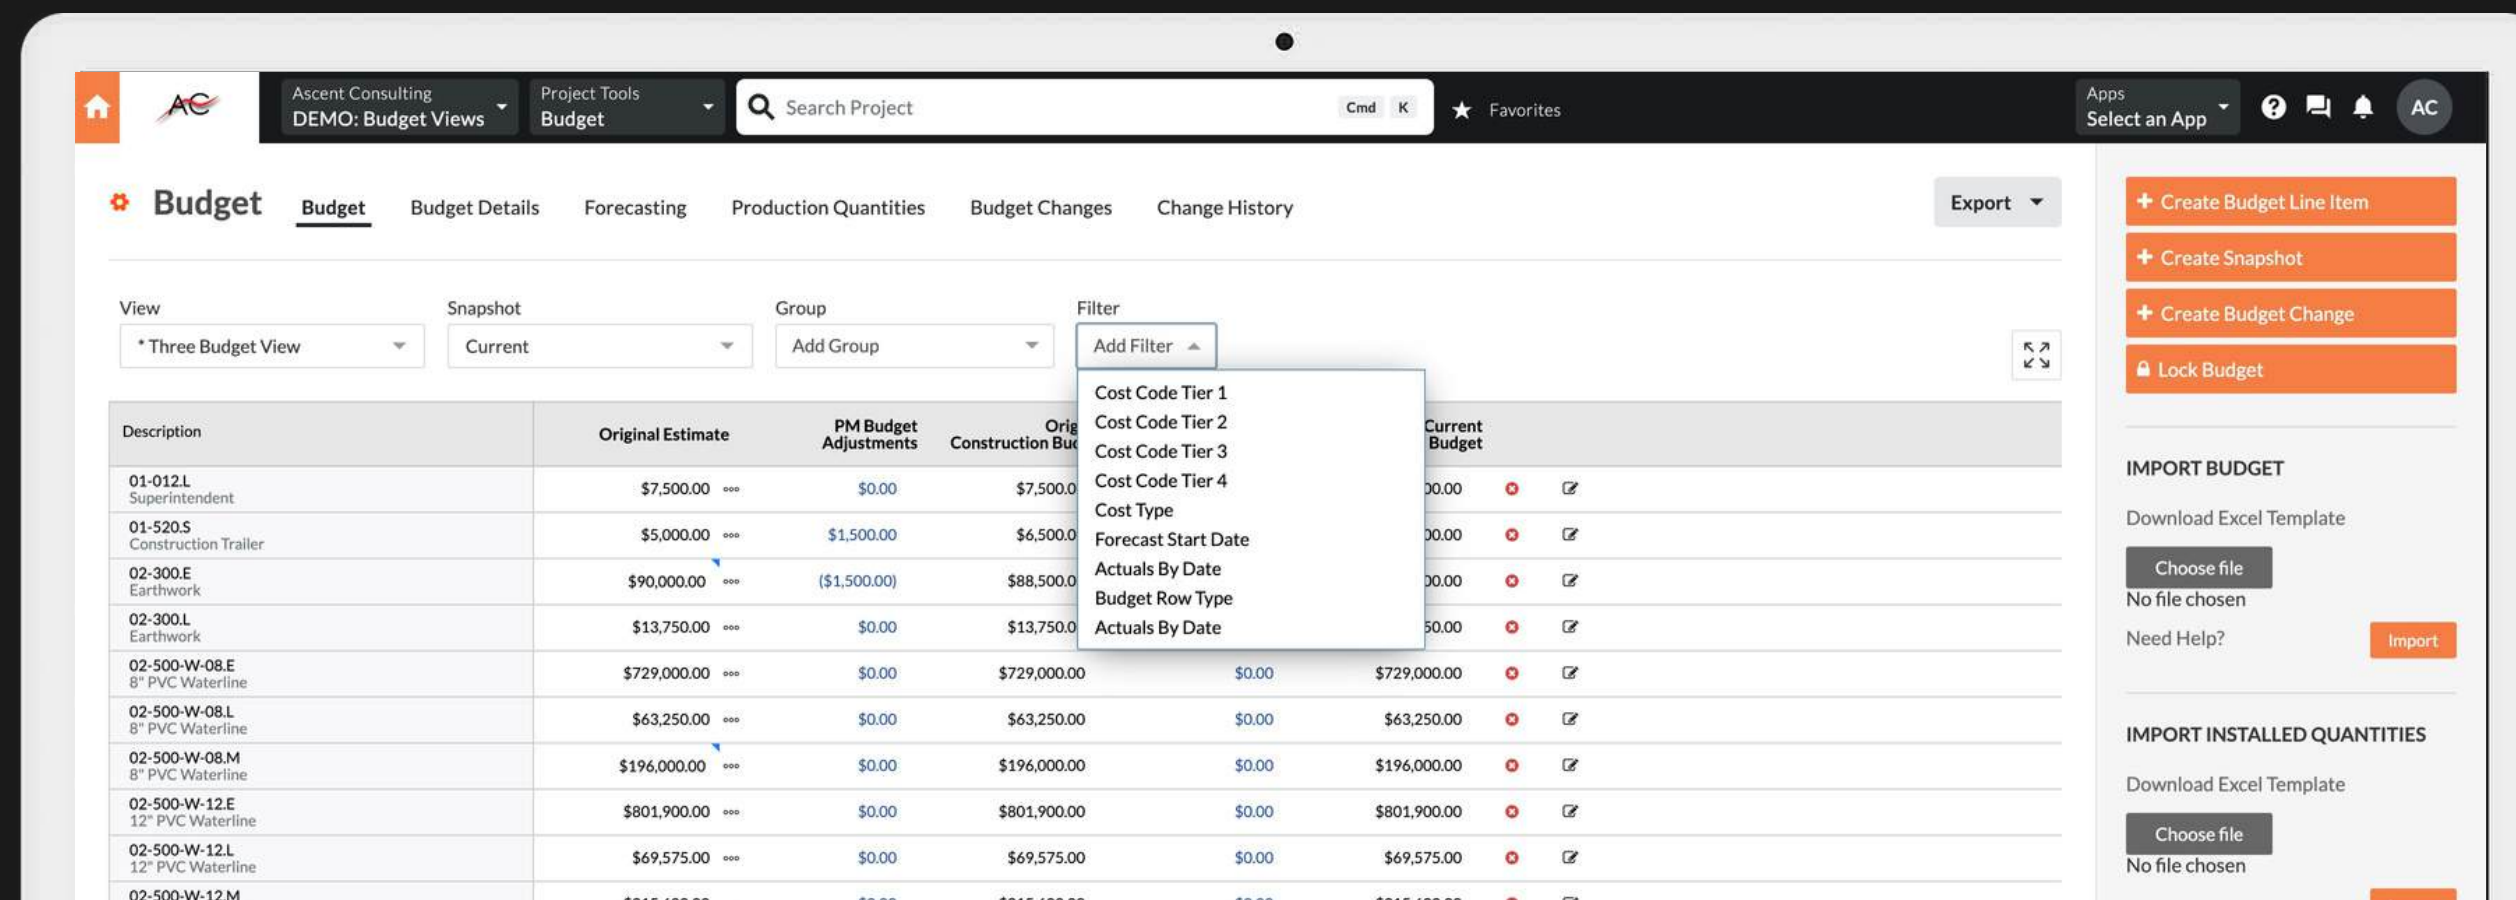

BENEFITS OF ASCENT'S EXPANDED USE TRAINING

- + Maximize your team's use of Procore to its fullest capabilities and see a true return on your investment.
- + Expand your team's use of Project Management, Quality & Safety, and Financial tools to properly track and manage projects.
- + Understand and decide if additional tools, such as Resource Management, Estimating, Pre-Construction and Workforce Planning are right for your company
- + Learn about add-ons and partner applications that could benefit your organization
