

AI Chatbot

Connecting AI with CRMs and
Platforms

Seamless Integration Solutions for Modern Businesses

AI Integration Ecosystem

Seamless Connections Across Multiple Platforms

Our AI solutions integrate with your existing systems **without disrupting workflows**.
Implementation is seamless, with no need to change current processes or tools.

WhatsApp Integration Solutions

Flexible Options for Official and External API Connections

Z-API

- ✓ Multi-device WhatsApp connection
- ✓ QR Code authentication
- ✓ Message templates and automation

Evolution API

- ✓ Open-source WhatsApp integration
- ✓ Self-hosted deployment option
- ✓ Multiple instance management

Both solutions enable seamless WhatsApp integration with your existing systems, allowing for automated messaging, customer support, and sales processes.

CRM Integration Capabilities

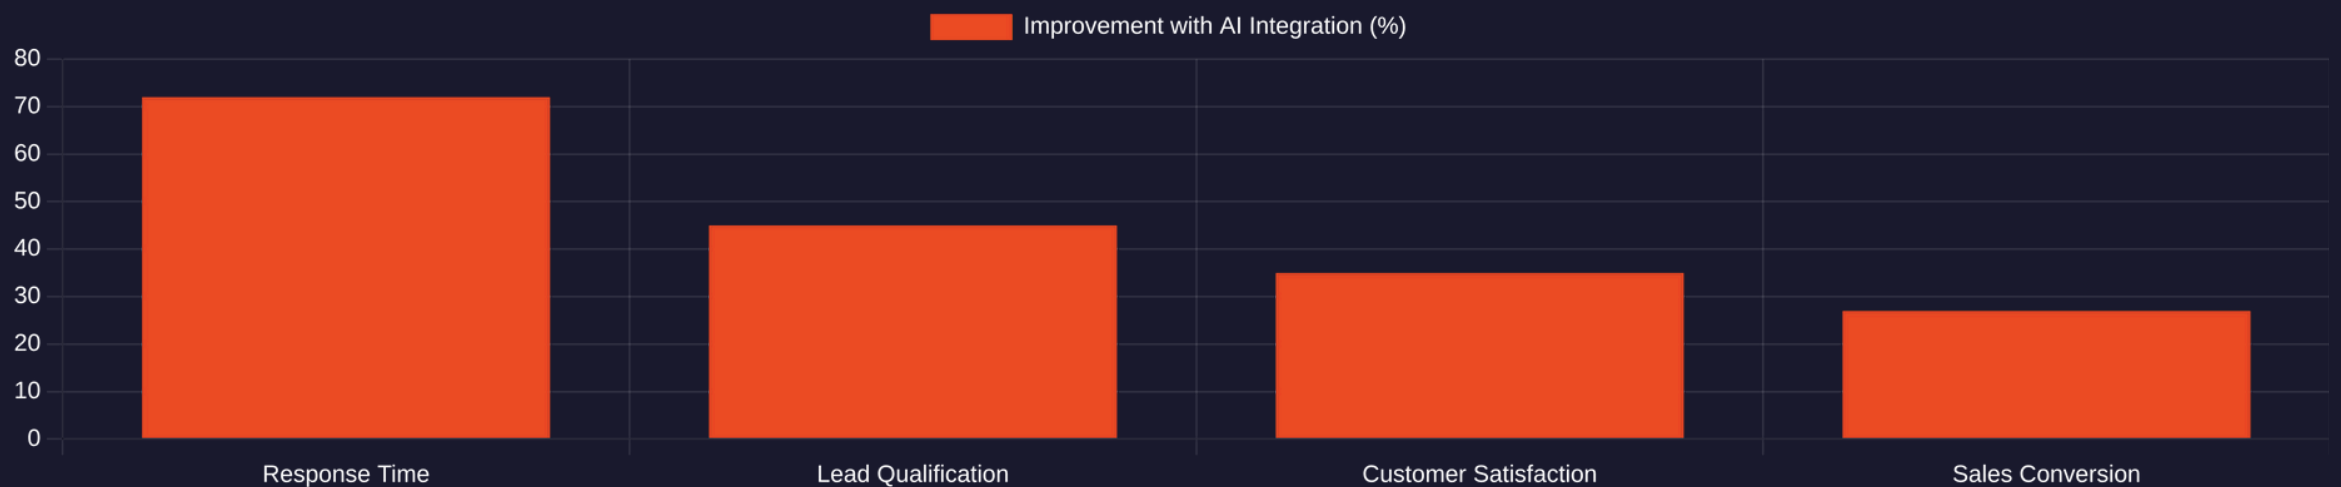

Enhancing Customer Relationship Management with AI

- ✓ Automated contact creation and updates
- ✓ Deal pipeline management via chat
- ✓ AI-powered lead qualification
- ✓ Meeting scheduling automation

- ✓ Intelligent lead routing
- ✓ Automated sales process stages
- ✓ Customer data enrichment
- ✓ Conversational sales analytics

Business Impact of AI-Enhanced CRM Integration

Marketing Platform Integrations

Enhancing Customer Engagement Through AI

ManyChat

Integrate AI-powered conversations with ManyChat's marketing automation platform to create sophisticated customer journeys.

Integration Use Cases:

- ✓ AI-enhanced chatbot flows
- ✓ Personalized product recommendations
- ✓ Automated lead qualification
- ✓ Seamless handoff to human agents

RD Station

Connect AI Chatbot with RD Station to enhance marketing automation and lead nurturing with intelligent conversations.

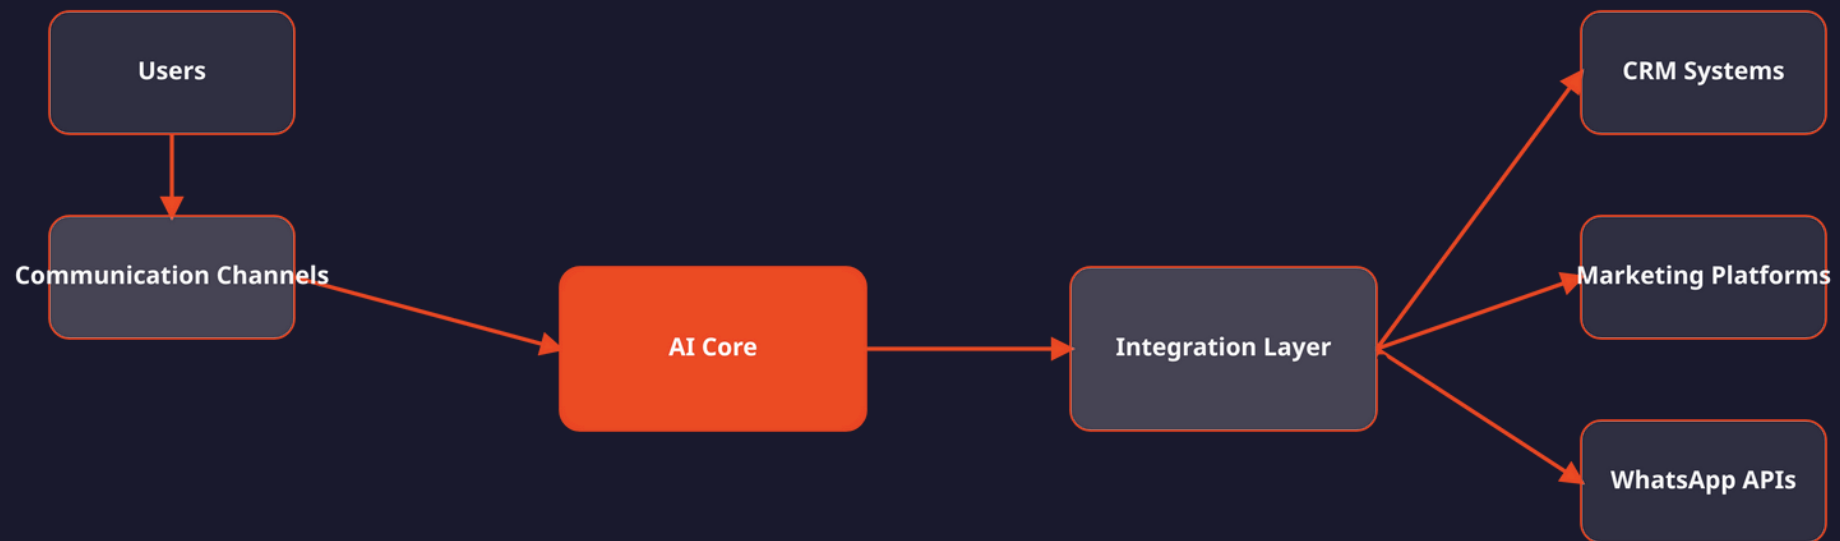

Integration Use Cases:

- ✓ Intelligent lead scoring
- ✓ Automated campaign enrollment
- ✓ Conversational landing pages
- ✓ Data-driven customer insights

Our integrations enable marketing teams to leverage AI for more effective customer engagement, higher conversion rates, and improved ROI on marketing campaigns.
