From ideas to impact, build what matters

moser consulting

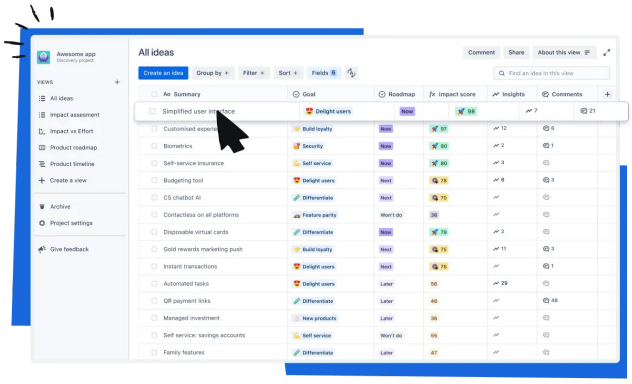

ATLASSIAN

Jira Product Discovery

Capture insights, prioritize ideas, and build roadmaps - all in Jira.

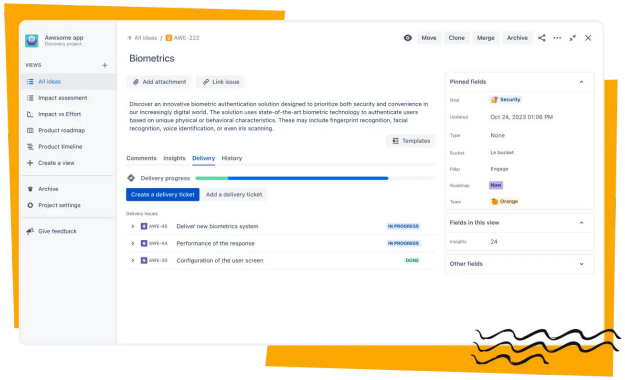

BRING STRUCTURE TO CHAOS

Leverage data and customer insights to help your team prioritize ideas that will make the biggest impact.

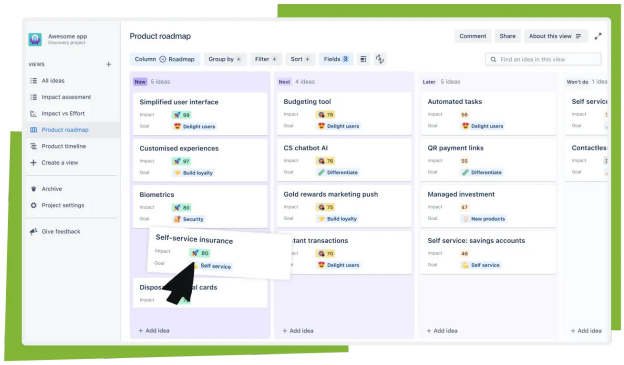

CONNECT DISCOVERY AND DELIVERY IN JIRA

Reduce context switching, add visibility, and move faster by seamlessly connecting your ideas to the delivery work happening in Jira.

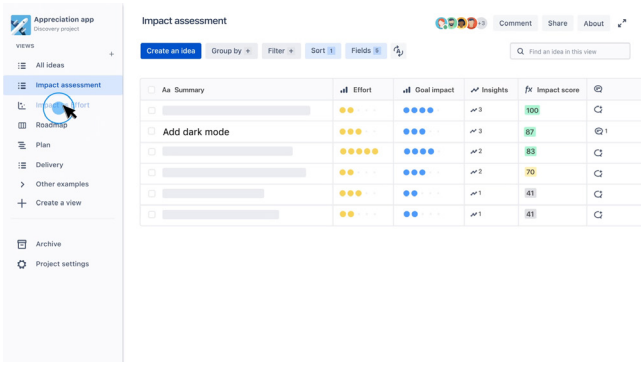

GET EVERYONE ON THE SAME PAGE

Spend less time updating and persuading with custom roadmaps that give your stakeholders the information they need.

DISCOVER YOUR NEXT GREAT PRODUCT IDEA

Better product decisions are made as a team.

BUILD BETTER FEATURES, NOT MORE FEATURES.

Leave the guess work behind and build products your customers love.

HOW IT WORKS

Capture ideas and insights

There's now a home for all the unstructured work that happens before you start building software. Gather and organize your product opportunities, user feedback, and feature requests all in one place.

Prioritize – your way

Flexible views and granular fields let you compare ideas against one another using the prioritization method that works best for you.

Engage and align your teams

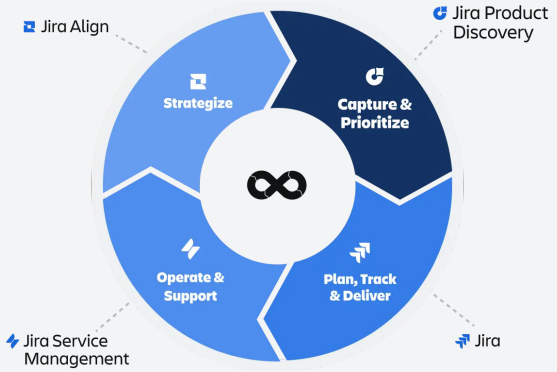

Create and share roadmaps tailored to individual stakeholders – even ones outside your organization – and let them provide feedback via comments, votes, or simple reactions.

Connect teams, all in Jira

Seamlessly connect your ideas to delivery work in Jira so your teams have full context and visibility from discovery to delivery.

CONNECT YOUR ENTIRE WORKFLOW WITH JIRA

From strategy and ideation through planning and delivery, bring your entire software lifecycle together in Jira.

Moser's team of Atlassian certified experts can assist with Implementations, Migrations, Optimizations and Managing your Atlassian tools. Let Moser help with the ongoing support of your Atlassian environment. Many times, a user is assigned the responsibility of managing/administering Atlassian tools simply because they are a "Power User". Moser can design a solution that fits your needs, whether using Moser's Managed Services or on an as needed basis. We have the experts that can help! Contact marketing@moserit.com for more info or a demo.

THE MOSER DIFFERENCE

With nearly 30 years of experience, we have built a reputation of trust and dependability. No matter where you are in your technology journey, we have the people and the expertise to help. Our customized approach is based on your needs, and we don't subscribe to an "out of sight, out of mind" policy. Once we sign on, we're with you for the long haul to ensure sustainable, long-term success and guidance, even after our initial project is done.
