

# The Egility Process

Our step-by-step process offers you a seamless transition to improved business operations.

## 1 Scope Definition

In the first consultation, we will discuss your business challenges and where you would like to see improvements to systems and processes.

## 2 Egility Systems Audit

Our experts will conduct a thorough review of your current operations to determine the best solutions for you and your team.

## 3 Data Migration

We will ask you to provide the data we need to migrate over to new systems as we set them up.

## 4 Training

Get everyone on your team up to speed with the new systems and how these can help them save time.

## 5 Support

With IntegrationKings monthly support packages, our team will be on hand via email and phone whenever you need us.
