SERVICE ITEMS

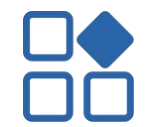

Assessment and Software Selection

We select and assemble the right ERP solution for you, after analyzing your business strategy and processes.

System Implementation and User Training

Equipped with vast project experiences in serving foreign companies, we help you implement ERP Solutions to digitalize your business from end to end.

Customized Integration and Development

We provide customization development services, with cost-effective design while following best practices at every step of the process.

On-going Monitoring and Helpdesk

After the system goes live, we provide ongoing monitoring service to ensure the system functions properly in adherence to the defined blueprint. We also respond to client requests for troubleshooting and support.

Accounting setup and upgrade

We partner with the shared CFO, who is familiar with your industry and Chinese business imperatives..

Re-implementation

We also offers re-implementation services of [Cin7 Core \(Formerly DEAR\)](#) and [Kingdee](#).

Pick the right software for your business

V
S

For mini to small sized businesses

Usually for team smaller than 30 people

Simple inventory management and light-weighted manufacturing management
