

• EXCLUSIVE OFFER FOR DRATA CUSTOMERS

ADVISORY SOLUTIONS • MANAGED COMPLIANCE PROGRAM

Compliance that runs. Not just when the audit is due.

Trava's Managed Compliance Program gives you a dedicated compliance team that builds your program, operates your GRC platform, and compiles your evidence — so your organization stays audit-ready continuously, not just when the audit is due. **Sign up during this Drata partner promotion and receive complimentary access to Trava's vulnerability scanning platform**, at no additional cost.

JUST A FEW OF THE FRAMEWORKS WE IMPLEMENT AND MANAGE

SOC 2 • ISO 27001 • HIPAA • HITRUST • CMMC • FedRAMP • GDPR • PCI DSS • NIST CSF

KEY MANAGED COMPLIANCE PROGRAM DELIVERABLES

Compliance Planning & Roadmap

Framework gaps identified, ownership assigned, and a realistic timeline scoped to your team's capacity.

GRC Platform Management

Integrations configured, evidence collection automated, and errors resolved before your auditor logs in.

Custom Policy & Procedure Development

Policies covering security, incident response, vendor management, and business continuity — built around how you operate.

Technical Evidence Collection

System logs, configuration files, and access controls gathered, analyzed, and mapped to your controls.

Audit Support

Internal and external audit guidance, with our team representing your program directly to auditors.

Vendor Risk & Trust Center Management

Vendor questionnaires handled and your Trust Center built and maintained on your behalf.

100%

Certification Success Rate

3X

Faster Audit-Ready

20+

Frameworks Actively Managed

Dedicated Team

Compliance Experts, Not a Platform Login

THE DRATA OFFER

Receive free access to our vulnerability scanning platform.

Sign up for the Managed Compliance Program during this Drata partner promotion and we'll include complimentary access to Trava's vulnerability scanning platform, at no additional cost — so you can see what's exposed while we build what's compliant.

Scoped to your business

Assessed against your environment, capacity, and risk tolerance — not a generic template.

One team, every audit

The same compliance experts who build your program represent it to your auditor.

A program that outlasts it

You walk away with a security program your business can stand behind, not just a certificate.
