Unlimited levels of analysis, providing one version of the truth, with templates and custom reports

Built for Integration

Connect to your bank, HMRC, Excel or other systems so data isn't siloed.

Rapid Implementation

Get up and running in days, with assistance and training from our dedicated, UK-based, team

How do Cin7 + iplicit Work Together?

Cin7 and iplicit give customers a live, accurate view of their financials and inventory, all in one place. Together, the platforms connect the dots between sales, stock and investment so finance teams have the visibility they need to make informed decisions.

Combined, powerful, functionality minimises the time users spend looking for insight, reduces the complexity of reconciliation and enables better forecasting - so businesses operate and grow with confidence.
