

Traditional VS portless

The Future Of Supply Chain Is Here.

Portless is a progressive 3PL provider that is transforming the cross-border e-commerce logistics landscape for brands with DTC channels.

Our revolutionary model is characterized by a significant fulfillment center in Shenzhen, China, direct delivery of orders via air freight from China to customers' doors in just days from the time of manufacturing, and a **fully domestic experience for consumers** with custom branding and local tracking numbers and shipping labels. We are currently in an expansion phase to facilities across Asia.

	Traditional	Portless
Can Convert Inventory to Cash 40-60 x faster	30-60+ days	2 days
Total Lead Time 90% reduction	30-60+ days	5-8 days
Avg Cost/Order* Up to 50% savings	\$11.86	\$5.88

*based on the total landed cost of one t-shirt from China to the US, including all supply chain activities (transport, import taxes, 3PL/shipping, etc.) from manufacturer to customer.

Increased Margins

Eliminate ocean freight expenses and enjoy duty-free imports for orders under a certain value (e.g. \$800 in US).

Inventory Flexibility

Agility with inventory. Test new SKU's and react instantly to actual demand, avoid overstock and out-of-stock scenarios.

Unlocked Cash Flow

Convert inventory into cash just days after production, reducing the cash conversion cycle.

Simplified Global Expansion

Sell to 55+ countries with a local experience with the same ease as selling in the US.
