our partners to transact
how they choose while
offering fast, competitive
settlement in the
currency of their choice.**

**Ready to experience the real-time
payments network built for Africa?**

Who we are

Onafriq connects businesses to Africa through our global omnichannel payment network of networks.

The problem

The fragmentation of digital payment schemes is holding back the potential of consumers, businesses, and entrepreneurs in Africa.

Our solution

A Network of Networks that connects global and regional enterprises, mobile money operators, money transfer operators, banks, fintechs, humanitarian organisations, and online and offline merchants to each other and to millions of African consumers and businesses.

500M

Humanitarian Organisations

Services

Choose the range of services designed to simplify your payment transactions.

Collections

We enable our partners through one connection to collect payments within and from Africa, scaling faster and cost-effectively.

Collections with Onafriq is more than just a service; it's a strategy for growth. By integrating with our network, you can give your customers the option of paying you through cards, cash, or mobile wallets.

Our API and self-service portal support merchant-pull and subscriber-initiated collections and integrate easily with third-party platforms.

Disbursements

We facilitate fast and secure payments to and within Africa for multiple use cases.

You can instantly pay salaries, loans or grants via bank accounts, cash pickups, or mobile money accounts in multiple markets, with the option of integrating with our simple plug-and-play portal or APIs.

Our simple remittance solution also enables you to offer flexibility in how your customers send money and how their families receive it.

With just one connection, you get access to over 500 million wallets across Africa, offering simple peer-to-peer transactions that transcend borders.

Cards Processing

Onafriq's trusted and globally accepted prepaid card program offers customisable physical or virtual prepaid card services tailored to your customers' needs.

This is more than just traditional card payments—it's your link to a vast network that gives you access to 500 million wallets, enabling the direct funding of prepaid cards via mobile money wallets and vice versa.

Our remarkable 99.999% uptime record ensures accurate and secure processing round the clock, giving you room to scale your digital payment strategy across Africa.

Agency Banking

Receive and make payments in and to Nigeria through our extensive super-agent network, Baxi, with over 460,000 agents nationwide.

Connecting to our API also grants access to various products and services for your channels and offers immediate scalability, income generation, and growth opportunities.

Treasury Services

We provide access to multiple currencies across the continent, reducing the complexities of dealing with different currencies, partners and multiple balances.

With Onafriq, you can collect and make payments across markets using multiple currencies and receive settlement in a single, preferred currency.

Why Onafriq?

One integration gives you access to Africa's largest footprint, covering 40 African markets, connecting 500 million wallets and 200 million bank accounts, and offering BIN sponsorship in 34 African markets.

Easy API with a single integration and support that enables fast scalability.

Pre-existing card scheme certification with Visa, Mastercard and Verve.

16 licences and regulatory approvals in multiple African countries with enhanced compliance reporting, and thorough due diligence.

Dedicated regional teams with African payments expertise and solutions designed for local conditions.

Platform Security

- SSAE18 (SOC1) Type 2 Audit
- PCI DSS 3.2.2 Certified
- GDPR compliant
- EMV Certified and Compliant
