

Who are we?

We are **Europe's largest e-commerce investor**. Since launching in 2019 we've helped 100's of e-commerce companies – including **TM Lewin, Mahabis, Itch, Fy! & The Stem** – grow their businesses. We provide fast access to growth capital (from **\$10k to \$5m**) without founders needing to give up ownership of their companies or give personal guarantees. We charge a **flat fee as low as 2%** on the capital provided, and repayments work on a revenue share, so if revenues slow down, companies are not stuck with high repayments.

Funding Provided

We can fund between \$10k – \$5M – we believe founders shouldn't have to give up ownership or pay interest to fund growth.

Revenue Based Financing – the advance is only repaid when sales are generated.

Fees as low as 2% – we charge a single flat fee of 2-8%, subject to the terms of the loan and usage of capital

Prioritised access – you'll go through a fast track application

Minimum funding requirements

We typically need to see two things before we are able to invest:

6+ months of trading

\$10k+ monthly revenue

How it works

1

Sign up

with a little information about your company

2

Connect your accounts

from your sales, marketing and financial platforms

3

Get offers in 24 hours

and speak to your dedicated account manager

What makes Uncapped different?

We move fast – customers can apply in minutes and they'll get a decision in 24 hours

We're flexible – if revenue slows down, so do our repayments

Customers keep control – there are no personal guarantees or loss of equity

Customers have peace of mind – we don't charge interest, just a flat fee, so they know our cost upfront

No security needed – unlike banks, we never ask for security or personal guarantees
