

Free your Cin7 data.

SyncHub connects Cin7 to your favourite reporting tools and AI platforms. Report on it, or ask our AI Assistant. No more CSV exports. No more copy/paste. Just good data.

1.8 billion+ records. 500+ businesses. 30+ countries.
QUIETLY SYNCING, RIGHT NOW.

Build personalised reporting dashboards

We stage your data in a warehouse, on the schedule you choose. Bring your own, or we'll provide one for free. Connect your favourite AI platform or reporting tool to query the data, across accounts. Not canned reports.

AI, meet data

Chat with your data in natural language, no BI or SQL skills required. Or connect Claude, ChatGPT or any MCP-compatible tool directly to your warehouse.

Connect your entire business

Add your other cloud services, accounting, CRM, ecommerce, HR, and 70+ more, to see across your whole business in one warehouse. No more jumping between platforms to piece the picture together.

WORKS WITH THE TOOLS YOU ALREADY USE

Set up in two minutes, three easy steps

No more CSV exports.
No more copy/paste.
Just good data.
