Some of our clients...

Client Testimonials

GameCloud consists of a great group of game testers, the communication is impeccable, they have demonstrated excellent knowledge in game testing, test implementation and documentation. They are a responsible group, never failing the deadlines and schedules. It is a pleasure to work with them.

Marius Ion
Playtika

The work with GameCloud's QA Team have been very useful for our project! They provide very quality and detailed test results. It helped us to realize what we need to improve in our mobile game. I highly recommend to work with Laxmikant and GameCloud!

Alexander Grishin
Kognito Interactive

We had the pleasure of working with GameCloud on a recent VR project at SubVRsive. They were responsive, professional, and excellent communicators. Their test team did an outstanding job documenting issues, and I was consistently impressed with their emphasis on bug quality over quantity. I strongly recommend using them, and we definitely plan on working with them again in the future!

Ian Villamin
SubVRsive
