

- ✓ Familiar & flexible spreadsheet **reporting** with incredible **automation**
- ✓ Wink does all the heavy lifting - we're inventory specialists, just like you
- ✓ Clients connect with a single click - **no tech skills required**

How we compare:

Other platforms	
Cin7 Internal Reports	Blend multiple sources, Spreadsheet-like flexibility and formulas.
Spreadsheets	1-click integration. Fast, accurate and always up-to-date.
PowerBI, Tableau	No data analysts or query writing needed.
Airtable, Monday, Smartsheet	Industry specific. Reporting, planning and automation all in 1 place = stickiness.
Zapier & other automation tools	Trigger based on blended sources across multiple entities using calculations across historical data.

4 powerful ways that Wink can help Cin7 clients.

Turn **NOs** into **YESs** so you can close more deals & retain more clients!

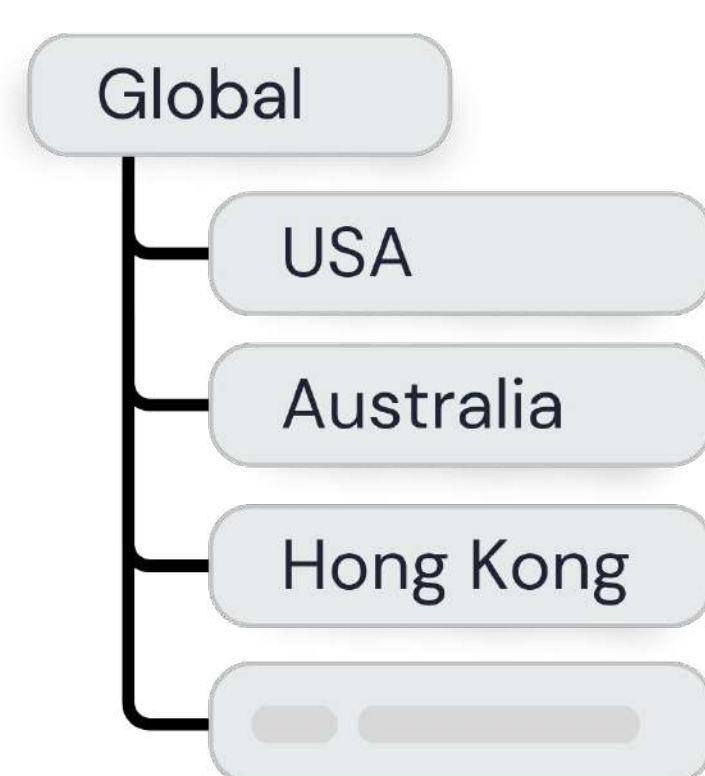

1. Your customer's legacy report is not a deal breaker - it's a *deal maker*

Wink can recreate almost any report or dashboard that a client may have in their legacy system.

2. Adapt Cin7 to their legacy way of doing things, with automations and data integration

Import and export data between Cin7 and any existing system the client has

3. Say 'yes, we can!' to multi-organisation reporting and data integration

4. Blend data and connect to 25+ systems:

AND MUCH MORE...

Companies are seeing **time & cost savings** from day one!

Two Cin7 Core instances which needed to be synchronized:

- Custom integration so both instances sync with Shopify for product data
- Update stock levels between both instances
- Sync all sales back to Hubspot, to track sales performance of their sales people
- Calculate more accurate COGS reporting
- SLA time tracking for order fulfillment

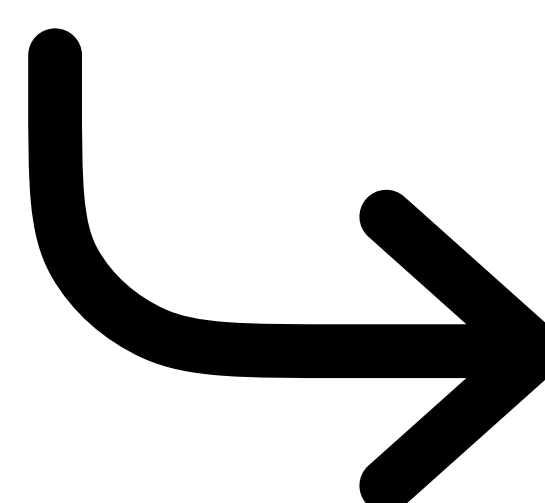

Needed advanced calculations which differ from standard functionality in Cin7 Core:

- Custom landed price calculation
- Custom consolidated statements
- Link Xero data with Dear sales people
