

Token Migration as a Service

Seamless. Secure. Delivered On Time.

Switching gateways shouldn't mean losing customers or stored payment data. Canyon Payments delivers fast, PCI-compliant token migrations that securely transfer your saved payment credentials between gateways — preserving customer relationships and minimizing risk.

We guide you through every step — from secure token export to testing and validation — making your migration simple, safe, and stress-free.

Essentials

For businesses migrating stored payment tokens that don't require subscription or recurring billing setup.

- ✓ **\$5,750**
- ✓ Up to 50,000 tokens
- ✓ Timeline: 14-21 days after receipt of export file

+\$1,000 per additional 50K tokens

Advanced

For businesses with active subscriptions or recurring billing that must remain intact during migration.

- ✓ **\$10,750**
- ✓ Up to 250,000 tokens
- ✓ Timeline: 3-5 weeks after receipt of export file

+\$1,000 per additional 50K tokens

Enterprise

For complex or multi-system migrations requiring coordinated testing, dependencies, and phased delivery.

- ✓ **Custom pricing**
- ✓ 250K+ tokens
- ✓ Timeline: Defined post-delivery

➔ Optional Add-Ons (Available for Any Plan)

Enhance your migration with optional upgrades that improve speed, data quality, and post-launch performance:

Faster Delivery — Complete your migration in as little as 7–10 days.

Data Clean-Up — Remove duplicate or inactive tokens before import.

Account Updater — Keep stored cards current automatically.

Ongoing Support — Continuous reporting and maintenance after launch.

Getting Started

We guide you through every step — from secure token export to testing and validation — making your migration simple, safe, and stress-free.
