

PARTNER-BUILT INTEGRATION

Clyde

Clyde is an ownership enrichment platform that drives value by unifying warranty, registration and issue resolution into one dashboard

Drive additional CLV in key purchase points like offering product protection, to drive significant revenue via SMS

Simplify post-purchase interactions with customers across warranty, registration, and issue resolution, via SMS

Increase customer communications across key stages in the customer journey, like when starting a claim, placing an order, or registering a product

PARTNER-BUILT INTEGRATION

Clyde

Clyde is an ownership enrichment platform that drives value by unifying warranty, registration and issue resolution into one dashboard

Drive customer lifetime value, personalize journeys & keep customers engaged with the Attentive & Clyde integration

With the Attentive & Clyde integration, merchants can capture events within Clyde like new orders, claims, and more for use in Attentive SMS Journeys
