

PARIS PROJECT REPORTING

FOR  Unanet.

A ROBUST & UNIFIED PORTFOLIO VIEW OF ALL PROJECTS FOR REPORTING
ALL WITHIN EXCEL, POWERED BY YOUR UNANET DATA

SAVE TIME: See which projects need your attention NOW.
NO combing through page after page of individual projects.

BUILD TRUST: One source of truth for finance and project managers.

ENABLE AGILITY: Leadership sees portfolio performance in real-time.

Let project managers manage projects, *not data.*

THE CHALLENGE

Project-based companies face growing reporting demands:

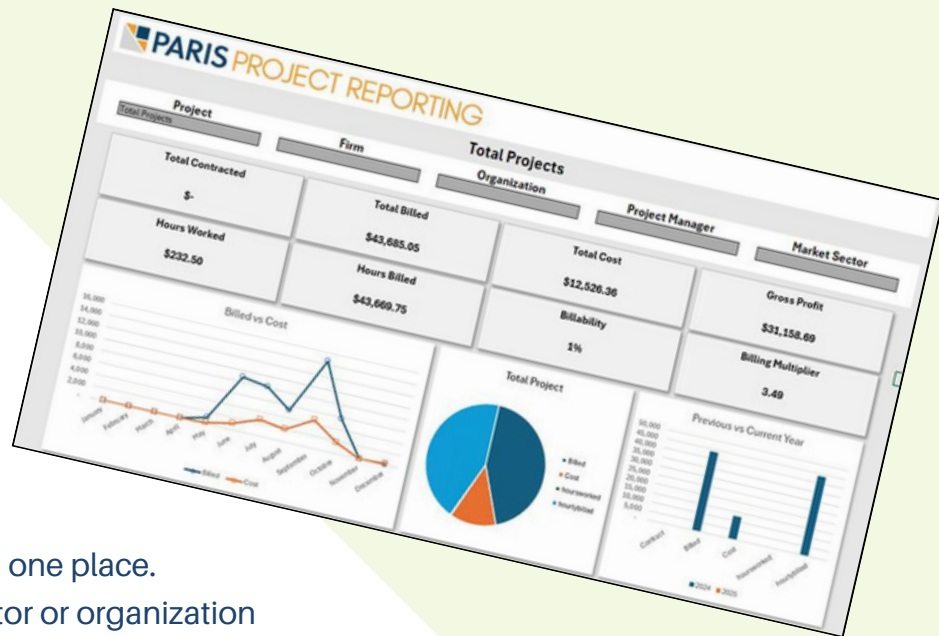

- No single view across multiple projects.
- Difficult, frustrating navigation of project management apps.
- No visibility into project phases
- Time wasted manually stitching spreadsheets together.

The RESULT:

Lost time, delayed or bad decisions,
inconsistent data, portfolio blindness
and frustrated teams.

The PARIS SOLUTION

✓ Unified Portfolio View

- See metrics across all projects in one place.
- Instant roll-ups by manager, sector or organization

✓ Phase Visibility

- Quickly drill down into phase level detail
- See Contract Value, Budget & Actuals
- View the breakdown of internal and external costs

✓ Frustration-Free Access

- One-click access to accurate Unanet data, directly in Excel.
- Automatically update reports
- No more exporting

✓ Excel-First Design

- Work in the tool your team already knows
- No retraining in a brand new interface
