FIRST YEAR EXPERIENCE

DEPARTMENT OBJECTIVES
(based on Common Core Curricula)

In First Year Experience Student Success courses (LM40, CSL20, HLTH2, CLP30, READ126), students will learn to:

1. Identify and access appropriate college resources
2. Articulate a basic understanding of the structure of higher education, including educational planning for career and transfer pathways
3. Identify and apply self-management strategies, including time, stress, and financial management
4. Articulate a deepened understanding of self
5. Define goal-setting strategies and develop personally meaningful goals
6. Articulate and implement concepts related to personal health and wellness
7. Identify their unique learning style and strengths, employing these understandings in the development and implementation of study skills and strategies
8. Employ strategies for effective interpersonal communication
9. Utilize basic tools within the Canvas computer learning management system

LEARN TO SUCCEED - YOUR FIRST YEAR AT BUTTE

Enroll in one of these “First Year Experience/Student Success Courses” during your first year to give you the college and life skills you need:

- Life Management (LM 40)
- College & Life Success (CSL 20)
- Career & Life Planning (CLP 30)
- Health & Wellness (HLTH 2)
- College Study Skills (READ 126)

After you receive your Assessment scores, take the appropriate Math and English classes in your first year.

Make sure you have the computer, technology, and research skills you need to succeed in your classes:

- Library workshops
- CAS Computer Labs
- Canvas for Students
- Digital Literacy Courses

GET INVOLVED

Students who get involved on campus make great connections, enjoy college life, and achieve better success:

- Campus Clubs and Organizations
- Student Government
- Mentoring Programs
- Leadership Opportunities
- Events & Activities
- Year-Round Campus Happenings
- Culture & Community Center
- Veterans Center
...and much more!
