The Chateaubriand Fellowship is a grant offered by the Embassy of France in the United States. Every year, it allows doctoral students enrolled in American universities to conduct research in France for 4 to 9 months. Chateaubriand fellows receive a stipend, a round trip ticket to France and health insurance.

In support of the Make Our Planet Great Again Initiative launched by President Emmanuel Macron in June 2017, the Chateaubriand Program is offering additional fellowships this year for research projects related to Earth System Science, Climate Change and Sustainability, and Energy Transition.

The Chateaubriand Fellowship in Science, Technology, Engineering, Mathematics & Biology-Health for doctoral students aims to initiate or reinforce collaborations, partnerships or joint projects between French and American research teams.

This fellowship is offered by the Office for Science & Technology (OST) of the Embassy of France in partnership with universities and research organizations in France and the United States. It is a partner of the National Science Foundation’s GROW program.

The HSS Chateaubriand Fellowship program targets outstanding Ph.D. students for doctoral students aims to initiate or reinforce collaborations, partnerships or joint projects between French and American research teams.

This fellowship is offered by the Cultural Services of the Embassy of France. HSS Chateaubriand fellows are selected through a merit-based competition, using a binational collaborative process involving expert evaluators from both countries.
