## Principal's Post

Dear Shaw Families,

Last week, we enjoyed celebrating Superheroes! Through activities, we learned about local superheroes, like Fire Fighters, Police Officers, Nurses, Doctors, and others but we also learned that we can all be a superhero through our actions! We were able to raise \$415.12 in change for our local superheroes at Paws4Ability. We are excited to be able to help this wonderful community organization who help others, so thank you for your help and support!

We celebrated the hundredth day of school for the kindergarten and first graders with lots of fun activities involving 100. This tied right into what most students are learning about in math; measurement. Second grade is learning about money; what each coin is worth and how to add and subtract it. In the upper grades, we have been learning about fractions; how to add them, subtract them, and order them from least to greatest. Anytime you can bring these concepts into conversations or daily activities at home would really help children understand them better and make a good connection with real life.

Thank you for continuing to work in collaboration with us to help your children succeed in their educational goals for the year. We love seeing the growth this time of year and are excited to see how much they grow from now until the end of the year. Please follow me on Twitter for activity updates around the school: @SHAWprincipalSP.

Sincerely,

Susan Peveler
