## LEARN ABOUT CerefolinNAC® Text Size [A](#) [A](#) [A](#)

Are you concerned your patient's memory loss is more than normal aging?

If so, what options are there to address the underlying complications of a Pre-Alzheimer's Disease condition?

The L-Methylfolate in CerefolinNAC® has been shown to provide greater cognition.<sup>1</sup> CerefolinNAC® is a **first line option** to provide dietary management of early memory loss. To help your patients REMEMBER the IMPORTANT MOMENTS, prescribe CerefolinNAC®, 1 caplet daily.
