Important Note: Purebulk sells both Pure Folic Acid and [Folic Acid 1%](#). This Folic Acid is far too potent for general public use.

This concentrated product is not intended for general use. It should only be used by professionals with the necessary skills to accurately measure very small quantities. We request that you contact us via email at store@purebulk.com prior to purchasing this product to let us know why you are qualified to purchase, handle and dose this product safely. Please observe extreme caution when measuring and handling this product. (See our contact page.)

Folic acid (also known as vitamin B9, folate or pteroyl-L-glutamate) is part of the B vitamin complex and is an important water-soluble vitamin. The human body needs folate to synthesize and maintain DNA, as well as to act as a cofactor in certain biological reactions. Folic acid is especially important in aiding rapid cell division and growth, such as during infancy and pregnancy. Children and adults both require folic acid to produce healthy red blood cells.

***NOTE: These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**
