Case IPR2014-00346
Patent 8,364,295

PATENT OWNER'S REQUEST FOR ORAL ARGUMENT

Pursuant to 37 C.F.R. § 42.70(a) and the Scheduling Order dated July 8, 2014 (Paper 14), Patent Owner Bose Corporation requests oral argument in this proceeding (IPR2014-00346). In particular, Patent Owner requests, without waiving consideration of any issue not listed below, argument on the following issues:

- (1) the proper construction of the term “configured to respond to signals received from the computer” that appears in challenged claims 25 and 51 of U.S. Patent No. 8,364,295;
- (2) the patentability of challenged claims 25 and 51 (and dependent claims 26 and 52 which depend from claims 25 and 51, respectively) over the instituted ground of rejection, for failure of the prior art to disclose “configured to respond to signals received from the computer” under the proper construction of that term, either alone or in combination;
- (3) all motions to exclude filed by the parties; and
- (4) any other matters raised by SDI or the Board.

A similar request is being filed today in the related proceeding IPR2014-00343, which concerns U.S. Patent No. 8,401,682. Patent Owner requests one hour per side for the two related IPR proceedings. The Board has already scheduled Oral Argument for February 24, 2015. *See* Paper 14, p. 6.

Patent Owner requests the use of audio/visual equipment to display demonstrative exhibits, including the use of a projector and screen for power point display, and will contact the Board Trial Division paralegal, per the Trial Practice Guide, 77 Fed. Reg. at 48768.

Respectfully submitted,

Date: January 13, 2015/
