**Altec Lansing ADA104- HOME THEATER SPEAKER SYSTEM-Dolby Surround**

**\$35.00**

**Sold**

Call for price

For Sale: Tested and working speaker system for use with home theater or PC or MP3 player.

Works well, good sound quality, no problems. Simple two piece design incorporates 5 separate speakers for true Dolby Surround Pro-Logic. Volume for Subwoofer, Center Channel, and Surround Sound channel can all be controlled separately. Long cable allows you to place the center/surround unit pretty far away from the subwoofer unit. Only the subwoofer needs to be plugged into an outlet. Am including two cables- one that will attach to a PC or MP3 player and another that will plug into a TV or stereo system.

Shows some cosmetic wear and scratches but not too bad. Drivers are all in good condition. There are two removable feet that allow you to change the angle of the center channel speaker if needed.

**Send your zip code for ship cost- should be between \$12.99 and \$28.99 if you are in the continental USA (June 2013).**
