REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest the claimed combination of elements. The closest prior art appears to be U.S. 2003/0220643 to Ferree and U.S. 2004/0143264 to McAfee.

Ferree, however, fails to disclose a metallic rigid portion...such that the metallic rigid portion can slide along the outer surface of the flexible member and where the spacer metallic portion has an outer surface configured to be secured within the second pedicle screw assembly.

McAfee fails to disclose elastomeric portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
