I am an authorized custodian of records for Honeywell and I am familiar with Honeywell's policies and practices for keeping records within the HS&E department.

3. I have been authorized to make this declaration on Honeywell's behalf.

4. Attached hereto are the following documents:

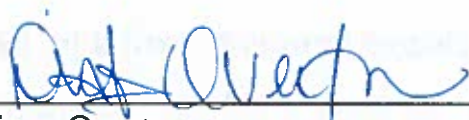

- EX2009, Project Permit Change Form to Permit# 626, dated May 16, 2008; and

The attached documents were prepared by authorized personnel of Honeywell in the ordinary course of business at or near the time of the acts, conditions, or events reported thereon, and by a person or persons with knowledge of and a business duty to record or transmit such information. It is the policy at the BRL for researchers or scientists to prepare permits or permit change forms in order to pursue experiments and changes or addendums thereto (such as process, chemicals, people), respectively. Once the permit or permit change form is approved by the appropriate personnel, the signed original of the document is routed to the HS&E department, where it is kept and maintained in the ordinary course of business. Since I have been in my position at Honeywell, we have also added the additional step of scanning the document before placing in the physical file in order to keep and maintain an electronic file as well.

6. The documents attached hereto are the true and correct copies of the originals maintained by Honeywell.
