Define: **Go!**
Definition Of:

coupling

 [Dictionary of Automotive Terms](#)

A connecting device used between two objects so motion of one will be imparted to the other; it may be mechanical, [hydraulic](#) , or electrical. Also see [fluid coupling](#) .

 [NCRS Construction Dictionary](#)

A short collar with only inside threads at each end, for receiving the ends of two pipes which are to be fitted and joined together. A right/left coupling is one used to join 2 gas pipes in limited space.
