

Model 555, Model 655 GRAIN TRANSPORT

Efficient, Low Cost Transportation of Crops

The most cost efficient way to move bulk material is to pull multiple loads with one power source. The Killbros Grain Transport Wagons let you do just that. It saves on fuel costs and time for short distance hauling.

Hydraulic-surge brakes, tail lights, flashers and turn signals are all standard equipment for a safer trip. The integral chassis and

bed on a rocking bolster holds the load stable for a smooth ride.

Make your Killbros Transport Wagon your own. Choose green, red or orange to coordinate with your other equipment. Use the standard chute to dump to the side; or dump to the center with the unique deflector. Either way you can unload fast from the extra-wide 58" door.

Standard features of Killbros Grain Transport

Big 550 or 650 bushel capacities.

Spring-assisted tongue and telescoping hitch for easy hookup.

Driver-side discharge includes deflector for center dump.

Rear hitch for pulling multiple units.

Surge brakes

Value features for productivity and long service life

Traditional Killbros value is evident throughout the Model 555 and Model 655 Grain Transport Wagons. What's more, extra value abounds with the many performance and convenience features that are included as standard equipment.

Unique chute latch eliminates the need for chains or straps during transport.

Extra-wide 58" door permits quick unloading, and 12" sampling gate provides added convenience.

Tail lights, flashers and turn signals are standard for safer transport. The viewing windows provide a quick visual check of the load level.

Specifications

Grain Transport Wagon	Model 555	Model 655
Capacity (#2 corn, 13% moisture, 58.9 lb test weight)	Up to 550 bushels	Up to 650 bushels
Box construction	12 and 14 gauge	12 and 14 gauge
Overall length	18'	18'
Overall height	9'6"	10'2"
Overall width	9'6"	9'6"
Front/Rear slopes	40°	40°
Back slope	33°	33°
Door width	58"	58"
Chute height	1' 8"	1' 8"
Chute unloading width	34"	34"
Approximate unloading time	120 sec	120 sec
Spindle size	3"	3 1/4"
Hub size	8 bolt	10 bolt
Wheel size	22.5x13.5	22.5x13.5
Wheel base	12'	12'
Track width	90"	90"
Approximate weight	5,900 lb	6,500 lb
Lights (flashers/signal/tail)	Standard	Standard
Brake type (surge)	2-wheel drum	4-wheel drum
Sampling gate	12"	12"
