

## Unverferth GB-335: The Bulk Material Handling Specialist

Durability, Performance And Convenience From The High ***IQ*** \* Line

**W**ith its box divider and dual unloading doors, the Unverferth GB-335 gravity box is specifically designed for your bulk seed and material-handling needs. Like all Unverferth High IQ gravity boxes, it is built with the Innovative design and Quality manufacturing characteristics of performance, durability and convenience.

**\* /nnovative design • *Q*uality manufacturing**

The GB-335 gives you the flexibility to load one half with fertilizer and the other half with seed, or a different variety of seed in each half.

**Performance:** With available 24-inch side extensions, the GB-335 can hold up to 400\* bushels of grain (200 bushels per side). Like all Unverferth grain boxes, the steep-sloped sides and graphite-coated interior make for fast, clean unloading.

The GB-335, matched with our 13- or 14-ton running gear, makes a unit with a low center of gravity and balanced distribution to provide stable towing.

**Durability:** Rugged MIG welding and a one-piece door-side panel enhance sidewall strength and durability. A full primer undercoat and high-quality enamel topcoat in a choice of tractor red or green, plus silicone-sealed exposed seams, help prevent corrosion.

Rounded box corners protect your optional tarp against punctures or tears.

**Convenience:** The large, 16-inch wide easy-opening doors are designed to allow unloading of the compartments individually. Pick your choice of left- or right-side unloading plus the optional center-dump deflector. For even more convenient unloading, equip your new GB-335 with an Unverferth unloading auger available in a variety of lengths, outer tube construction and flighting choices.

A front ladder and two windows are standard equipment for easy viewing of box contents.

Visit your Unverferth dealer today to see the GB-335 and all the other High IQ grain handling equipment.

#### DIMENSIONS

Length	Width	App. Box Wt. Empty	App. Box Wt. Empty—24-inch Extensions
12'	7'6"	1,622 lbs.	1,935 lbs.

Specifications calculated with standard tires; all measurements are approximate and can vary, depending on tire size and brand.

\* Capacities measured with #2 corn at 15% moisture (56 lb. per bushel test weight)

Due to continuing improvements in the design and manufacture of Unverferth products, all specifications contained herein are subject to change without notice.
