12th MAN

BACK TO EASPORTS

Along with the presentation that you'd expect of EA SPORTS, the whole look of the game will be "better than TV" with stunning 3D graphics and motion captured players, along with unique camera perspectives, and on-field and crowd sounds that just aren't possible on television. This unparalleled attention to detail continues through to the most accurate and up to minute player ratings and statistics available, as well as accurately modelled stadia, physics, pitch and weather conditions.

The ICC Cricket World Cup

- Real teams,
- Real players
- Real stadiums (including Lord's, The Oval, and Old Trafford) from the biggest event in the cricketing world

Presentation

- Play by play commentary by "the voice of cricket" Richie Benaud and David Gower.
- Multiple camera angles: including unique batter's cam and stump cam views.
- Unlimited 3D camera perspectives.
- Hardware Accelerated 3-D support (PC) and hi performance software engine for maximum performance on every supported PC.
- 2 control methods for arcade style action, or "simulation" mode, giving the user the perfect balance of playability and depth.

Realism

- The most accurate and up to date team and player ratings available from PA Sports, the world's leading supplier of sporting statistics. For the PC version, these statistics will be updatable regularly via dedicated EA SPORTS "Live" web sites enabling gamers to quickly download actual up to the minute world cup tournament statistics, including player injuries, form, team selections, and weather conditions.
- Incredibly accurate physics means that batting, bowling and fielding are more realistic than ever before. Accurately modelled weather and pitch conditions

Strategy

- In-depth strategy mode allowing for detailed team management, strategy and in-game tactics to help your country win cricket's greatest prize.

Graphics

- Highly detailed motion captured players with over 600 moves captured from England One Day players Adam and Ben Hollioake.
