Title : ATTACHABLE BREAST
ENHANCEMENT SYSTEM

AND COPYING UNDER 37 C.F.R. §1.132**

Commissioner:

In connection with the above referenced patent application, please consider the following declaration of commercial success.

I, David E. Chen, declare as follows:

1. I am a named inventor in the above-referenced application. I am also Chief Operations Officer of the assignee of the subject application, Bragel International, Inc. I set forth the following true facts based on my personal knowledge. I have been warned that

willful false statements and the like are punishable by fine or imprisonment (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon.

2. The breast form system which is covered by the claims of the subject application has enjoyed incredible success in the marketplace. Bragel International, Inc. sells the breast form product under the trademark "NuBra™". A true and correct sample of an embodiment of the NuBra™ breast form is attached hereto as Exhibit A.

3. The breast form system of the subject application has met a long felt need for such breast forms that was both persistent and that was recognized by those of ordinary skill in the art. For years, women have been searching for a product that would provide them with an option for temporarily enlarging and/or enhancing the size and/or shape of their breasts in a manner that was both natural looking and natural feeling, and in a manner that would permit use with dresses or blouses designed to reveal the wearer's shoulders and/or back, e.g., be of a strapless and/or backless design. While a number of breast enhancement products existed in the marketplace, e.g., in the form of pads made from foam, rubber or silicone, many of these products required that they be worn with and supported by a traditional bra. A number of these products were known to provide an appearance and feel that is unnatural, and further preclude use with certain dresses or blouses designed to reveal the wearer's shoulder and/or back portion. Despite the fact that this need existed for years, it was not satisfied by another before I and my co-inventors invented the breast form system of the subject application. As you can see from the breast form attached as Exhibit A, it is specifically engineered to enlarge and/or enhance the size and/or shape of a wearer's breast in a manner that is both natural looking and natural feeling, and in a manner that avoids the use of a traditional bra or even straps.

4. Bragel first began selling the NuBra™ product in November, 2002. Since then, Bragel's total revenue for the NuBra™ product has grown to over \$17,000,000. The growth in Bragel's revenue from this product has obviously been enormous, as the demand for the product has necessitated hiring more employees, working more shifts, and expanding our manufacturing capabilities. This commercial success is directly derived from the invention claimed, in a marketplace where the consumer is free to choose on the basis of objective principles.

5. When we market our NuBra™ product, it is featured in Bragel's advertisements as shown in Exhibit B attached hereto and incorporated herein. Bragel's advertisements tout the benefits and features of the NuBra™ product, and it is because of these inventive features as set forth in the pending claims, that our NuBra™ product has been so commercially successful.

6. Independent reviewers have also taken note of the NuBra™ product. Attached as Exhibit C and incorporated herein are true and correct copies of numerous articles from the press reporting on the NuBra™ product. If the NuBra™ product was common and obvious, given the number of years that bras have been in humankind, I doubt whether the press would take any notice of it.

7. The NuBra™ product has not only been well received by our customers and independent reviewers, but unfortunately, competitors and copyists have also received it well. There have been significant instances of blatant copying both here in the United States and throughout the world. The products produced by these copyists are slavish copies of the NuBra™ product and, in my opinion, such instances of copying support the novelty and non-

obviousness of the claimed invention. Attached as Exhibit D is a true and correct copy of some advertisements for products that are copies of the NuBra™ product.

8. Also, attached as Exhibit E are true and correct copies of federal District Court orders issued against infringers of the NuBra™ trademark used with our product. The infringers of our NuBra™ trademark are selling copies of our NuBra™ product which are covered by the claims of the subject application. It should be appreciated that since a patent has not issued, we have been unable to sue the infringers based upon patent rights. Nevertheless, these District Court actions do evidence further copying of our NuBra™ product.

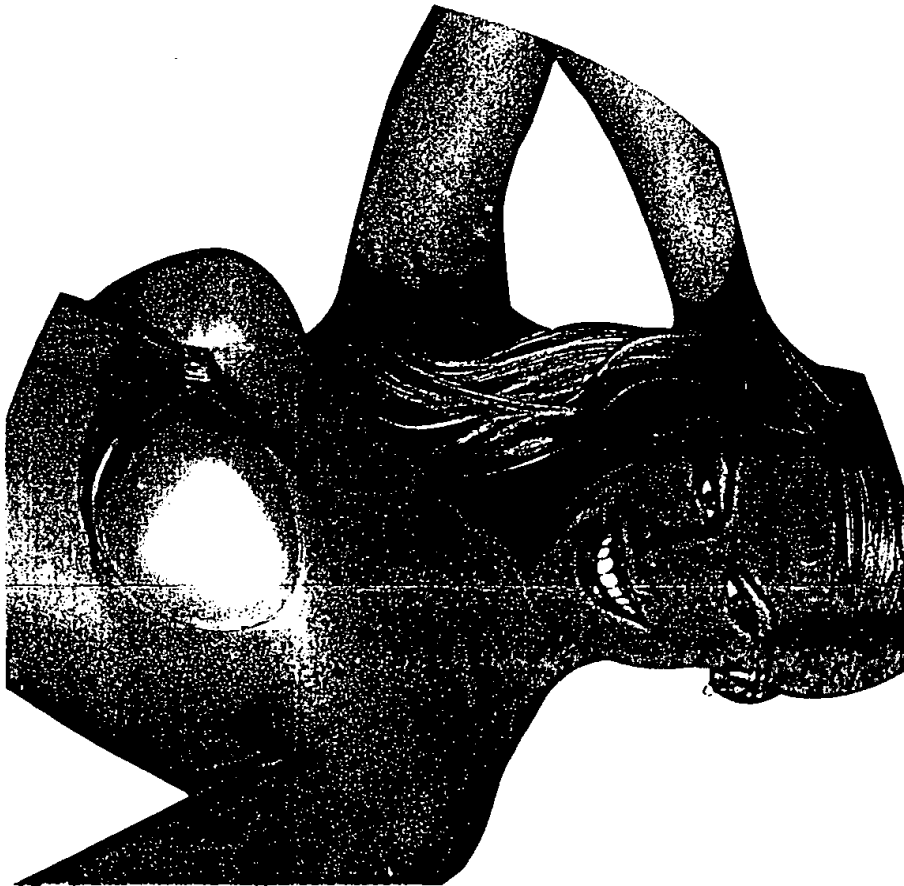

9. The NuBra™ product has been a very successful bra product and I believe that its success is definitely attributed to its novel features which meet the long felt need of consumers for a bra product that provides the attributes of the NuBra™.

PANTIES PLUS, INC. EXHIBIT 1007

COMMENT ENLEVER NUBRA:

Prenez votre temps. Commencez par détacher les deux bonnets, ensuite décollez doucement du haut vers le bas. Si des particules restent collées sur votre poitrine, enlevez simplement le surplus avec un linge doux.

BIEN NETTOYER NUBRA EST ESSENTIEL

Bien nettoyer NuBra après l'utilisation pour ainsi enlever toutes impuretés qui pourraient empêcher l'adhésif de bien coller la prochaine fois.

NE PAS LAVER OU SÉCHER À LA MACHINE.

1. Lavez NuBra à l'eau tiède avec un soupçon de savon doux. Lavez à la main avec un mouvement circulaire. **NE PAS UTILISER** vos ongles, ceci pourrait déchirer le bonnet ou détériorer l'adhésif.

2. Rincez bien à l'eau tiède pour enlever toutes traces de savon. Secouez et placez ensuite dans le plateau original, puis laissez sécher à l'air libre.

NE PAS UTILISER DE SERVIETTE POUR SÉCHER.

3. Lorsque votre NuBra est complètement sec, fermez le couvercle du plateau. Ceci empêchera la poussière ou les saletés de se former sur l'adhésif. C'est en prenant soin de votre NuBra que celui-ci durera plus longtemps.

ATTENTION:

- **NE PAS UTILISER DE SERVIETTE POUR SÉCHER** ou ne pas placer de vêtements sur l'adhésif, sinon la peluche empêchera une bonne adhérence. Enlevez toute peluche délicatement avec les doigts.
- **NE PAS UTILISER DE BROsse OU VOS ONGLES** ou tout autre objet pour nettoyer le NuBra. Ceci pourrait endommager de façon permanente l'adhésif.
- **NE PAS NETTOYER AVEC DE L'ALCOOL,** **DE L'EAU DE JAVEL** ou tout autre produit nettoyant. Tout ce dont vous avez besoin est de l'eau et du savon.
- **N'ESSAYEZ PAS D'ENLEVER L'ADHÉSIF,** car vous risquez d'endommager le produit.
- **NE PAS UTILISER D'OBJETS COUPANTS** sur votre NuBra. Si vous percez votre NuBra par erreur, utilisez un pansement muni d'un adhésif pour empêcher la rupture de continuer.

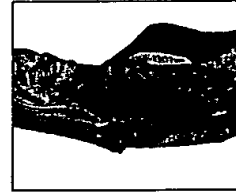

NuBra n'est pas conçu pour remplacer votre soutien-gorge quotidien, mais pour vous permettre d'être totalement libre.

NUBRA N'EST PAS RECOMMANDÉ POUR LES FEMMES DONT LA PEAU EST SENSIBLE

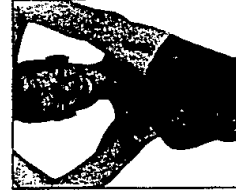

LA PEAU EST SENSIBLE si elle ne supporte pas la peau irritée, coupée, ou si elle a subi la brûlure, la pelade, ou si elle a subi des antécédents de problèmes de peau ou de sensibilité à l'utilisation de NuBra. Si vous avez des problèmes de peau, consultez votre médecin. Nous suggérons d'utiliser NuBra pendant une période de 24 heures consécutives pour vous assurer que NuBra n'aggrave pas votre problème.

Thank you for purchasing the NuBra!
NuBra has no side extensions or binding bra straps - creating a total freedom that is comfortable to wear.

INSTRUCTIONS FOR APPLICATION:

It is important that you follow the instructions carefully prior to wearing NuBra. DO NOT USE moisturizers, perfumes, powders or other skin care products prior to use, as this will reduce the effect of the adhesive.

- 1 CLEAN YOUR SKIN: THIS IS THE MOST IMPORTANT STEP.**
Gently clean your chest area with mild soap and water to remove body oil and residue from skin. Dry your skin with a soft towel and IMMEDIATELY apply NuBra for best results. DO NOT USE powders, moisturizers, oils or fragrances anywhere near the chest area prior to applying your NuBra.

2 PLACE ONE SIDE ON AT A TIME:

Stand in front of the mirror. Flip the cup outward while holding the bra cup by the edges with both hands (see photo). Position the cup to your desired breast angle and gently smooth the cup edges firmly to the breast with your fingertips. Repeat the same application on your other breast, being sure both sides are equal in height (see suggestions).

3 CONNECT THE FRONT CLOSURE:

Then, with both hands on the bra cups (see photo) press firmly for a few seconds to secure the hold. Now you are ready to enjoy the total freedom and comfort of your NuBra!

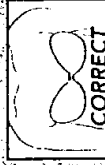

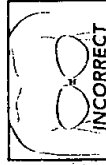

SUGGESTIONS:

For a fuller look, wear the NuBra at a higher position than your breasts. NuBra is designed to be flatter on the lower portion of the cups so it can blend with your breast without showing its edges. Therefore, it is normal if NuBra does not cover your entire breasts (diagram A). To create cleavage, place your NuBra cups farther away from each other so when the front closure is closed securely, this will tighten the breast to create that ultimate cleavage you're looking for.

Note: If you are not satisfied with the results and must reposition the bra, peel off the bra gently and reapply. Too many attempts will reduce the effectiveness of the adhesive. If this happens, simply wash the bra clean and let it air dry before reapplying.

HOW TO REMOVE NUBRA:

Take your time to detach the front closure first, then gently peel off the bra starting from the top and gradually downward. If any adhesive residue remains on the skin after removal, simply wipe it off with a soft tissue to remove.

CLEANING IS ESSENTIAL AFTER EACH USE:

Always wash your NuBra after each wear to remove any body oil or other residues that may clog the surface of the adhesive.
DO NOT MACHINE WASH OR DRY.

- While holding one bra cup in the palm of your hand, wet the adhesive surface with warm water and add a small amount of mild soap. Gently use the palm of your other hand to create a circular motion to clean. **DO NOT USE** your fingernails, as this can cause a tear in the adhesive.
- Rinse the bra cup with warm water to remove all soap residue. Shake off all excess water and place into the original tray to **AIR DRY**.
- DO NOT USE A TOWEL TO DRY.**
When your NuBra is completely dried in the original tray, cover with the lid. This will prevent dust and lint from gathering on the adhesive. The better you care for your NuBra, the longer it will last.

CAUTION:

- DO NOT USE A TOWEL or place the adhesive side against clothing, as the lint will gradually clog the adhesive. If something does get onto the adhesive, carefully pick it up with your fingers. Try to avoid the clothing that sheds fibers easily.
- DO NOT USE A BRUSH OR FINGERNAILS or any object to clean the surface. This will cause permanent damage to the adhesive.
- DO NOT CLEAN WITH ALCOHOL, BLEACH or any cleaning solutions. All you need is warm water and soap.
- DO NOT TRY TO REMOVE THE ADHESIVE, or you risk damaging the product.
- KEEP SHARP OBJECTS AWAY from your NuBra. If you puncture your NuBra by accident, use an adhesive-like bandage to prevent further split.

NuBra is not intended to replace your normal daily bra. However, it was designed for women who prefer "Total Freedom" from binding bra straps.

NOT RECOMMENDED FOR WOMEN WITH SENSITIVE SKIN.

DO NOT use on open cuts, skin disorders, sun damaged or sun burned skin. DO NOT wear if you have skin depigmentation problems or have a family history of skin depigmentation. We suggest that you do not wear NuBra for more than six hours at a time. All skin types are different; discontinue use if signs of irritation or rash appear. If irritation continues, please consult your doctor.

LIMITS OF LIABILITY

Brage International Inc. shall not be liable for any damages (including incidental, consequential or otherwise) resulting from the use of its product in a manner contrary to the instructions for application and use as set forth above. By wearing this product you are hereby releasing Brage International Inc. of any legal liability resulting from its product. UNITED STATES & WORLDWIDE PATENT PENDING

Merci d'acheter le NuBra!

NuBra n'a aucun prolongement latéral ou de bretelles. Il procure donc une liberté totale qui est confortable à porter.

INSTRUCTIONS POUR L'APPLICATION:

Il est important de lire les instructions attentivement avant d'installer NuBra. **IMPORTANT: NE PAS METTRE** de crèmes hydratantes, de parfums ou d'autres produits sur la peau - ceci pourrait empêcher l'efficacité du produit/soutien-gorge.

- 1 NETTOYER LA PEAU: C'EST L'ÉTAPE LA PLUS IMPORTANTE.** Nettoyez doucement le buste avec de l'eau et du savon doux pour enlever toutes saletés. Séchez le buste avec une serviette douce. Pour un meilleur résultat, nous recommandons que vous utilisiez des essuie-touts.

2 METTRE UN BONNET À LA FOIS:

Tenez-vous debout devant un miroir. Renversez les côtés du bonnet en les tenant des deux mains (voir photo). Posez le bonnet à l'angle désiré sur un sein et palpez doucement en place avec le bout des doigts. Répétez la même chose sur l'autre sein, tout en vous assurant que les deux côtés sont à la même hauteur (voir suggestions).

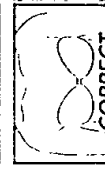

3 RELIER LES DEUX BONNETS ENSEMBLE:

Reliez les deux bonnets ensemble à l'aide du clip. Ensuite, avec une main sur chaque bonnet (voir photo), appuyez fermement pendant quelques secondes pour s'assurer qu'ils sont bien en place. Vous pouvez maintenant apprécier la liberté et le confort que NuBra vous procure.

SUGGESTIONS:

Pour un buste plus voluptueux, portez le NuBra en montant le buste un peu plus haut que la hauteur normale. NuBra est conçu de façon à être plus mince sur les rebords pour permettre une discrétion assurée sous les vêtements. Donc il est tout à fait normal que NuBra ne couvre pas entièrement votre poitrine (voir diagramme). Pour créer un décolleté pulpeux, placez chaque bonnet un peu plus loin l'un de l'autre avant de refermer la fermeture.

Notez: Si vous n'êtes pas satisfaite du résultat et devez remplacer le soutien-gorge, décollez-le délicatement et réappliquez-le. Trop de tentatives réduiront l'efficacité de l'adhésif. Si ceci se produit, lavez simplement les bonnets et laissez les sécher à l'air libre avant de les réappliquer.

New strapless, backless bra marks revolution in comfort

It's a natural fact that breasts jiggle (real ones, that is) and bras don't.

Unless it's the NuBra, a strapless, backless bra made of two silicone cups — complete with adhesive on the inside that's modeled after those surgically-implanted silicone breast enhancers.

It's soft and fleshy, sort of like the real thing.

Developed by Pomona, Calif.-based

Bragel International, it's one of the greatest innovations in undergarment engineering since the introduction of the WonderBra.

Actually, it's better than that: The NuBra's strapless design eliminates those red lines across the shoulders or back. And it's like a giant butterfly Band-Aid, sticking on and staying put. Sure, the NuBra is great for practical

purposes — like with a strapless, backless dress — but the best part might be just looking at it and showing it off as it lies in its plastic case.

The directions — a necessary read to avoid sags or sudden detachment — claim the bra will adhere for up to six hours for each wearing. Our field test involved eight hours of jumping, sweating and dancing, and the extend-

a-bust made it to the end of the evening with no sign of falling off. When it's time to remove, the discomfort is minimal — nothing more than a little tugging at the skin. After wearing, just rinse with mild soap and water and lay out to dry.

By morning, the cups are sticky again and ready for applying.

The manufacturer says each NuBra

has 120 wears in it. The NuBra, which has been on the market since December, retails for about \$60 and is available in "clear" (transparent) and "nude" (pinkish) in A, B and C cup sizes only. (Silicone-bra technology can't yet accommodate the fullest figures.)

Self-adhesive bra ● solves strapless woes

By Elizabeth Wellington
Knight Ridder Newspapers

The soft, fleshy cups arrived unannounced.

New breasts! Cool!

NuBra, manufactured by California-based Bragel International, is a self-adhesive bra with adjustable hooks in the front. It retails for \$59.95 and is available in clear and nude in A, B and C cup sizes only.

Attach them, and they'll round out, jiggle and provide fabulous cleavage without sliding straps.

NuBra is the offspring of the silicone breast enhancers Bragel introduced in 1989. The company, which makes gel prostheses for breast-cancer patients, spent three years developing the sticky strapless bra as the answer to the I-have-a-backless-dress-but-still-need-support problem. A very real summer issue, thank you very much.

Bragel introduced NuBra at a lingerie trade show in December. Since then, Nordstrom, Saks Fifth Avenue and countless small boutiques have inundated the firm with requests for the newfangled unmentionable, said Joyce Hu, a company spokeswoman.

Bragel knew there was a market for its figure enhancer, but the company wasn't prepared for the demand at home and overseas. Hu wouldn't give sales numbers, but she said thousands of NuBras have been made.

"Women wanted something that stuck to the skin rather than being removable because it fit well under today's popular sleeveless and

"I sold 10 the first day I had them. I made another order already. They look very natural. They don't droop."

— Tracey Ling
Manager of a Philadelphia cosmetics store

backless looks," Hu said.

Boutique owners were leery at first. Folks here, they said, are conservative when it comes to fashion and cash. There was no way they'd pay close to \$60 for a bra that couldn't — under any circumstances — be returned.

Clearly, retailers underestimated the spending potential of the cleavage-challenged.

"I sold 10 the first day I had them," said Tracey Ling, manager of South Philadelphia's BT Skincare Cosmetics Inc. The shipment arrived last week.

"I made another order already," Ling said. "They look very natural. They don't droop."

The NuBras can be worn 120 times, the manufacturer says.

I decided to try them.

My girlfriends giggled.

"They look real," they said.

"They move with you!"

NuBra stayed in place all day.

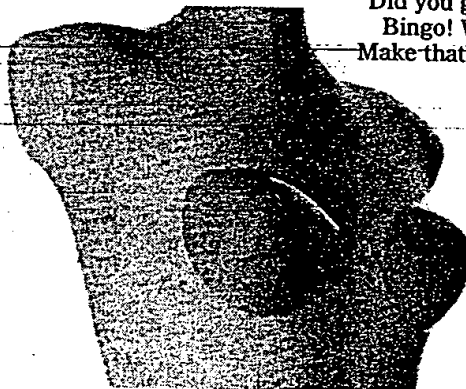

But would a man notice? I put it to the test with a male friend at lunch. We ate and made small talk, but he didn't mention my extras at all. Then, two hours later, he called.

"I wanted to ask you a question," he said hesitantly. "Did you get implants?"

Bingo! We have a keeper. Make that two of 'em.

The self-adhesive NuBra is made of silicone. It retails for \$59.95

Costume designer Denise Wingate, who has dressed **Cameron Diaz**, **Selma Blair**, and **Sarah Michelle Gellar** and has plumped the breasts of many a starlet

"Get a bra you can tighten from the front, or sew the center of a bra together as snugly as possible. You get amazing cleavage that way."

"Try the NuBra. It has padded adhesive cups with a connecting strap in the middle."

SELL YOUR SCREENPLAY

Screenwriting partners **Kirsten Smith** and **Karen McCullah Lutz**, who penned *Legally Blonde* and enticed **Robert De Niro** to buy an idea over the phone

Lutz: "Practice to the point that it seems pretty anal." Smith: "We outline the movie, then scale it down to pitch form, about 15 to 20 minutes. We even have little rehearsals beforehand."

Smith: "We once set up posters of the actors we wanted to play the roles so whenever we'd say, 'And then the pizza boy comes in,' we'd point to a poster of, like, **Marky Mark**."

Ifly. The Writers Guild of America registers more than 40,000 "literary materials" a year (from scripts to treatments)—plus the exec you're pitching might not show up (which happened at the pitch for *Legally Blonde*).

STOP NASTY GOSSIP

Spin doctor **Allan Mayer**, the partner at **Sitnick and Company** who kept **Halle Berry**, once accused of leaving the scene of an accident (she pled no contest), in our good graces. He's currently handling **R. Kelly**, who's awaiting trial on child porn charges.

"Remember that it's not enough to be innocent—you have to act the way people expect an innocent person to act. A lawyer would tell you don't go to that party. But then everyone will think that person has something to hide."

"Take your situation seriously, but not more seriously than it deserves. Take **Ben** and **J.J.**. They didn't turn [the strip club incident] into a tempest in a teapot."

Better the sooner you start talking. "If things are said about you and you don't respond, people accept them. Keep up with it or the wave will roll right over you."

STAR-STUD YOUR PARTY

Amanda Schwan and **Mark Brooke**, the co-owners of **Truth Be Told PR**, get the party started for **Leonardo DiCaprio**, **Britney Spears**, and their many friends.

Schwan: "Develop relationships with agents, publicists, even personal assistants. If you want a celebrity guest, you can't just pop an invitation in the mail."

Offer chauffeurs, secret entrances, VIP rooms, and increased safety measures. Schwan: "When we did the opening of **White Lotus** in L.A., we had **Edward Norton** go in through the back door."

Great, if you're working the party scene (with funds to spare). Brooke: "You get to know people over time. **Rosario Dawson**, **Elizabeth Banks**—we were around for them before they became well-known."

GET AN AGENT

Theresa Peters at the **William Morris Agency**, who reps **Kirsten Dunst**, **Mandy Moore**, **Joshua Jackson**, and **Mariah Carey**

"Showcases. A group of actors get together and invite agents, managers, and friends of friends—because it's all about who you know. Then they put on scenes to showcase their talent."

"Take acting classes for the networking opportunities, and make sure you're working in the right restaurant. There's a whole underground of actors helping each other out."

High, if you're patient. "**Scott Foley** was out here waiting tables for seven years before he got an agent and landed *Felicity*. It's like a chess game."

the thong is still big but with one major improvement: it is now available in a low-rise g-string to accommodate the new low-waisted pants and jeans. "It is not desirable to see a thong sticking out of the back of your jeans anymore," warns Godwin.

Oddly enough it is perfectly acceptable to play peek-a-boo with your bra straps. To that end, designers are now creating bras with lots of style and

sass. "Bras have taken on a '50s-inspired look," says Godwin. Say good-bye to white lace and hello to polka dots, retro prints,

stripes and bold colors including orange, blue and pink. These colors and prints may be fun, but they won't work under something sheer or strapless. Enter the greatest thing since the Wonder Bra: the NuBra. "This is the hottest strapless bra around," exclaims Godwin. This extraordinary bra is self-adhesive and comes in A, B and C cup sizes. Even better, it can be

Whatever bra you choose, make sure that you work with someone to ensure the proper fit. Most women unknowingly wear the wrong bra size. That's why it is important to have someone measure you. "The right bra not only gives you support, but it can make you feel sexier," confides Godwin.

UNDER COVER

Before we dish about the latest advancement in underwear, we'll say it for you: "You're kidding, right?"

Not when it comes to the NuBra. This isn't Grandma's foundation garment. The NuBra is a flesh-colored backless, strapless bra crafted of 100 percent silicone. The minds behind this lingerie advancement are at Fashion Forms — the inventors of the original water bra.

At first glance, the jiggly, sticky, breast-shaped cups raise doubts — and eyebrows. But don't knock 'em till you've tried 'em. The two adhesive cups form to your body for seamless coverage. Position the cups and connect the front closure to enhance cleavage. And you can wear the NuBra under sheer styles for a more natural look.

The NuBra is reusable and can be washed with soap and water. The adhesive lasts for more than 100 uses. It even stands up to a hot and humid night on the town.

The NuBra is available at department stores including Neiman Marcus for \$60. It is available in cup sizes A-C.

BABY'S GOT BOUNCE

THE PRODUCT

Fashion Forms NuBra, manufactured by California-based Bragel International, the same company that pioneered water bras and gel prostheses for post-mastectomy wear. Imagine a pair of silicon-filled, polyurethane falsies the color and consistency of pale veal cutlets. The concave side of each cup is coated with an adhesive, allowing it to stick directly onto the breast without straps. The two cups are then linked in front with a discreet bra-style latch.

THE PROMISE

"The most revolutionary creation in intimate apparel."

THE TEST

When attached, the cutlets are almost invisible, giving my chest a disconcertingly featureless appearance. But once I'm dressed, the sudden dimming of what my husband calls my "high beams" isn't a problem. In fact, it's a plus. My bust is totally smooth, with no visible seam where NuBra ends and I begin. The bra-style latch that links the twins even gives me a bit of cleavage, and the look and feel is much softer, swingier and more naturally jiggy than a standard molded-cup bra.

The adhesive, which the box promises will last more than 100 uses, feels comfortably secure through a hot day and evening (though slightly tacky when the cutlets are peeled off, painlessly,

at day's end). If not for the extra bit of weight and lack of airflow, I'd hardly notice they were on.

Instructions recommend washing the NuBra with mild soap and water and allowing to air dry. Storing in the original box keeps the adhesive free of stray lint or threads.

THE VERDICT

Ahh, if only NuBra had been around for my senior prom. Even now, it's a great addition to the lingerie drawer, perfect under bare little sundresses, backless haliers and cotton tanks. (Some might even try it under swimsuits.) Be advised, though, that if lift is an issue, NuBra doesn't offer much help. Another caveat: Due to health-code restrictions, the NuBra is not returnable.

THE DETAILS

NuBra is available in A, B and C cup sizes (order your true cup size), and in clear or nude. (Black is reportedly in the works.) It retails for \$60 — and has been selling out almost as quickly as shipments have arrived — at Neiman Marcus, Stanley Korshak, Sheers The Bodywear Bar, Tootsies, Forty Five Ten, Dillard's and Kristi's. NuBra is also sold online at www.siliconeworks.com.

[STYLE FILE]

Find the best dress, and science will provide you with the support

I have no patience for the wistful shopper who approaches every beautiful dress or pair of shoes with a resigned sigh and the statement, "I don't know where I would wear this."

Make no excuses. Buy it and the occasion will present itself. Or in my case, the technology. That's right, half the time garments are unwearable because the right underpinnings can't be found.

There were some excellent sales when the DKNY outlet closed last fall, and that's how I found myself with four backless

halters, knowing they required a strapless, backless bra. I could have worn them under a jacket, but they're too pretty to hide, and so they remained in my closet, unworn, tags attached.

But ladies, there is a science god, and now you can have your strap-free support with the double attribute of silicone without the surgery.

I could happily do without the extra half-inch padding, but I'm not complaining as the NuBra has allowed me to wear tank tops, wide necklines and backless clothing without worrying about unsightly straps. Everyday, I can think of more unworn

items to pull out of my closet, including sheer whites and mesh clothing.

NuBra's self-adhesive, silicone-filled, polyurethane is weird, wild stuff sure to generate more wonder than the Wonder Bra. It's made by Fashion Forms, the company that introduced the water bra a few years back.

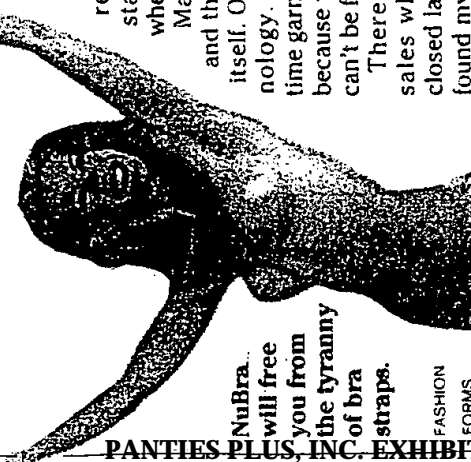

NuBra's two molded cups simply stick to, ahem, the twins. A bra-like snap pulls them together for as much or as little cleavage as you want. But be careful where you place the cups, lest you look like you're packing a double scoop of ice cream.

The NuBra is perfect for sum-

mer's sundresses and skimpy spaghetti-strap and tank tops. When the day's over, peeling it off is fairly painless, though you might want to hit the shower because it leaves a bit of sticky residue. You can wash the bra itself with a soap and warm water.

The bra comes in clear and nude colors in A, B and C cups, and costs \$60 at Neilman Marcus. The box reads that the bra is good for more than 100 wearings if cared for properly. Also, try to avoid intimate contact with strangers, lest you scare them to death upon undressing.

HOW TO USE

INSTRUCTIONS FOR APPLICATION: It is important that you follow all the instructions carefully prior to wearing NuBra. **DO NOT USE** moisturizers, perfumes, powders or other skin care products prior to use, as this will reduce the effect of the adhesive.

1. CLEAN YOUR SKIN: THIS IS THE MOST IMPORTANT STEP. Gently clean your chest area with mild soap and water to remove body oil and residue from skin. Dry your skin with a soft towel.

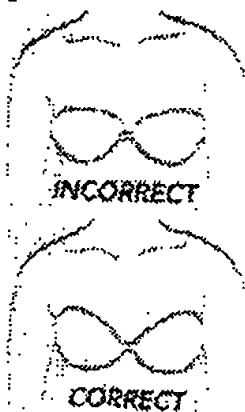

2. PLACE ONE SIDE ON AT A TIME: Stand in front of a mirror. Flip the cup outward while holding the bra cup by the edges with both hands (see photo on left). Position the cup to your desired breast angle and gently smooth the cup edges firmly to the breast with your fingertips. Repeat the same application on your breast, being sure both sides are equal in height (see suggestions).

3. CONNECT THE FRONT CLOSURE: then, with both hands on the bra cups (see photo on left) press firmly for a few seconds to secure the hold. Now, you are ready to enjoy the total freedom and comfort of your Nudy Bra.

SUGGESTIONS: For a fuller look, wear the Nudy Bra at a higher position than your breasts. Nudy Bra is designed to be thinner on the lower portion of the cup so it can blend with your breast without showing its edges. Therefore, it is normal if Nudy Bra does not cover your entire breasts (photo on left). To create cleavage, place your Nudy Bra farther away from each other so when the front closure is closed securely, this will tighten the breast to create that ultimate cleavage you're looking for. Note: If you are not satisfied with the results and must reposition the bra, peel off the bra gently and reapply. Too many attempts will reduce the effectiveness of the adhesive. If this happens, simply wash the bra cups and let air dry before reapplying.

HOW TO USE

HOW TO REMOVE NUDY BRA: Take your time, detach the front closure first, then gently peel off the bra starting from the top and gradually downward. If any adhesive residue remains on the skin after removal, simply wash the area.

wipe skin with a soft tissue to remove.

CLEANING: Always wash your Nudy Bra after each wear to remove any body oil or other residues that may clog the surface of the adhesive. DO NOT machine wash or dry.

1. While holding one bra cup in the palm of your hand, wet the adhesive surface with warm water and add a small amount of mild soap. Gently use the palm of your other hand to create a circular motion to clean. DO NOT USE your fingernails, as this can cause a tear in the adhesive.

2. Rinse the bra cup with warm water to remove all soap residue. Shake off all excess water and place into the original tray to AIR DRY.

3. DO NOT USE A TOWEL TO DRY. When your Nudy Bra is completely dried in the original tray, cover with the lid. This will prevent dust and lint from gathering on the adhesive. The better you care for your Nudy Bra, the longer it will last.

CAUTION:

1. DO NOT USE A TOWEL or place the adhesive side against clothing, as the lint will gradually clog the adhesive. If something does get onto the adhesive, carefully pick them up with your fingers. Try to avoid the clothing that sheds fibers easily.

2. DO NOT USE A BRUSH OR FINGERNAILS or any object to clean the surface. This will cause permanent damage to the adhesive.

3. DO NOT CLEAN WITH ALCOHOL, Bleach or any cleaning solutions. All you need is warm water and soap.

4. DO NOT TRY TO REMOVE THE ADHESIVE, or you risk damaging the product.

5. KEEP SHARP OBJECTS AWAY from your Nudy Bra. If you puncture your Nudy Bra by accident, use an adhesive-like bandage to prevent further split.

6. NOT RECOMMENDED FOR WOMEN WITH SENSITIVE SKIN. DO NOT use on open cuts, skin disorders, sun damaged or sun burned skin. DO NOT wear if you have skin de-pigmentation problems, or have a family history of skin de-pigmentation. We suggest that you do not wear Nudy Bra for more than six hours at a time. As skin types are different, discontinue use if signs of irritation or rash appear. If irritation continues, please consult your doctor.

THE ULTIMATE IN SELF-ADHESIVE SUPPORT!

1. Clean your skin before application. Do not to apply any lotions, perfumes or other skin care products prior to usage: this will reduce the effectiveness of the adhesive.
2. Place one bra cap on at a time. Flip the cup outward while holding the bra cup by the edges with both hands.
3. Connect the front closure, then with both hands on the bra cups press firmly for a few seconds to secure the hold. It is that simple and comfortable.
4. For a fuller look place the bra at a higher position onto your breasts. Silicone Bra is designed to be thinner on the lower portion of the cup. It can blend with your breast without showing its edges. Therefore, it is normal if Silicone Bra does not cover your entire breast.

Breasts - Un Bra Cup Size A

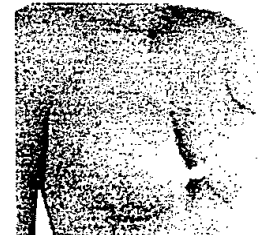

The Un Bra is the ultimate solution to your fashion dilemma questions. So many back-less garments should be worn without a bra. For many women wearing apparel in this manner is just not an option. For this reason, the Un Bra was designed. This self-adhesive silicon bra system solves this problem.

By following the simple instructions, almost any dress, gown, sweater, blouse, halter top, swimsuit, top of any design can be worn comfortably and without the need for a bra. The Un Bra can also provide added cleavage much like the "Wonderbra" except that the UnBra can be adjusted to increase or decrease the amount depending upon the desire of the user. The clear, front clasp makes cleavage adjustment simple and mistake-proof.

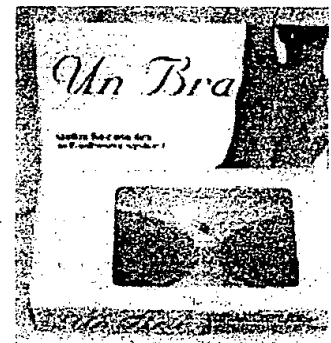

The Un Bra adheres to your body making it almost part of your skin. The soft and naturally contoured cups have no jagged edges that alter the appearance of the breast. With regular use, the Un Bra will become part of you. If you are seeking total freedom without any embarrassment then the Un Bra is the answer.

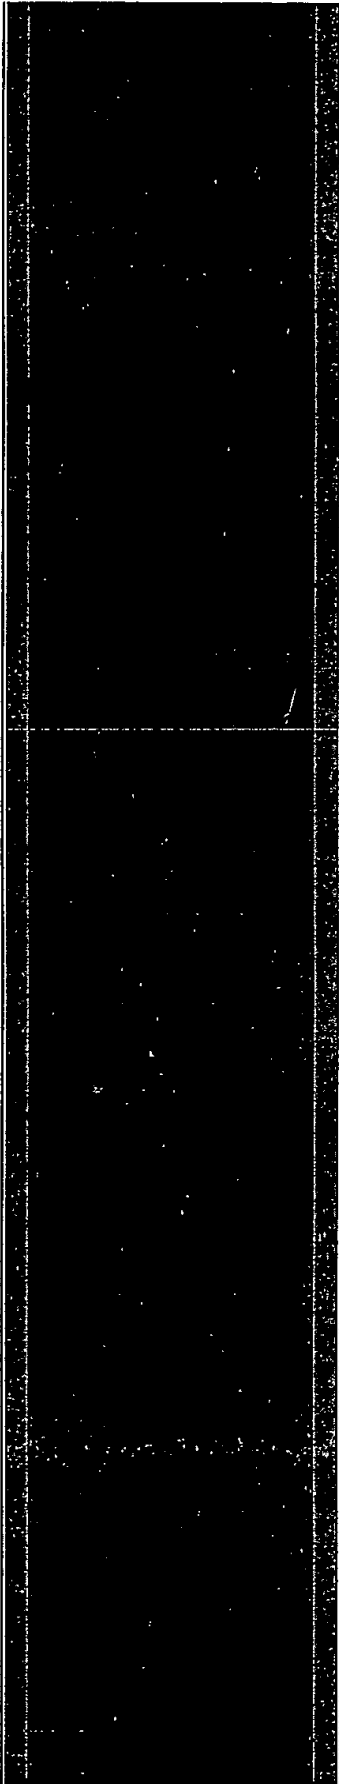

Directions: Please follow these instructions for proper fit and use:

- **Skin Preparation** - Prior to the application of the Un Bra, it is important to cleanse the chest area with soap and water. This will remove any body oil or residue that may effect the proper adhesion of the Un Bra. Do not apply any lotion or cream to the skin after cleaning.

Un Bra

• **Un Bra Application** - Unclasp the Un Bra and take only one of the cups out of the package at a time. Facing a mirror, fold the cup in half with both hands. Apply the cup from the base of your breast and smooth on upwards and sideways until the cup snugly covers your breast. It is absolutely fine if the cup does not cover the whole breast. Please take special care to avoid any air pockets. Remove and reapply if necessary. Repeat this same procedure with the other cup onto the other breast. After the Un Bra cups have been evenly positioned on the chest, press on firmly with both hands for a secure hold.

• **Fastening Of Clasp** - With both hands press down on both cups and push towards the center of your chest as you fasten the clasp with your fingers. This will create the degree of cleavage that you desire.

• **Removal of Un Bra** - Gently unfasten the clasp. Using your fingers only, gently peel off the cup from the top edge and gradually fold it outward and downward. Once the cup is off, flop the cup back to its original shape and place it on any hard surfaced tabletop while avoiding any contact with tissues or towels. Repeat this procedure with the other cup. It is highly recommended that the UnBra be returned to its original tray for easy and safe storage.

Cleaning Instructions: Cleaning the Un Bra after usage is very important. This will not only insure proper hygiene but will also maintain the adhesive on the Un Bra.

- Do not clean Un Bra with clasp fastened. Always clean one cup at a time. Hand wash only.
- Wet the cup with water. Apply mild soap to adhesive and gently clean with the palm of your hand in a circular motion. Never clean with your fingers since the nails may tear or damage the adhesive. Rinse under tap water and shake the cup to remove excess water.
- Always return the cleaned cup to its original tray and allow to air dry. Never dry with a towel or tissue since this will leave lint or paper residue on the adhesive surface rendering poor adhesion. After air drying in the tray, close the lid on the box in order to keep it clean and fresh for the next use.

Recommendations For Usage of the Un Bra:

- **For Ultimate Cleavage** - To achieve even greater cleavage, position the cups further away from each other. Envelop each cup with both palms while pushing the cups toward center of chest, then fasten the clasp. This should result in the increased cleavage that you are seeking.
- **For A More Filled-Out Look** - Position the cups slightly higher on the breasts. This will create a fuller appearance to your breasts.

Un Bra Precautions:

- Do not apply any lotion, oils, moisturizers, perfume, cosmetics or anything to the breast or the surrounding area. This will jeopardize the effectiveness of the adhesion on the UnBra.
- To protect the adhesive surface on the UnBra, always avoid contact with towels, paper, tissues, or any other material that lint easily.
- Avoid contact with sharp objects. Never clean with your nails or a brush.
- Avoid contact with any harsh cleaning or chemical agents. These

agents may damage the adhesive membrane on the UnBra. Mild :
and water is all that is required for the cleaning of the UnBra.

- Never try to peel or remove the adhesive membrane on the Un
- This may cause inflict permanent damage to the cups.
- Always store the UnBra in its original tray with lid closed.

The New "Strapless" Bust Enhancing Silicone Bra

NaturalBra
perfection in bra design

- Hypoallergenic silicone
- Invisible & natural
- Won't fall down
- Fits A, B, and C cups

Women have struggled for years the perfect bra. Well now it's here it's called the **Natural Bra**. It's a bra that gives you the look of a natural added cup size, is comfortable to wear and can be worn with any strapless backless fashions.

The Natural Bra is made from two hypoallergenic silicone forms that adhere and feel real. Under-wire bras are uncomfortable... and you can always see the lines under your clothes. Strapless bras cut into your skin and are forever falling down. The Natural Bra's strap-free support is comfortable to wear... and adds a **full cup size instantly**. It's invisible and looks completely natural. And best of all, you can wear strapless and backless fashions with confidence, all day long.

The secrets in the unique adhesive securely holds each form in place. Simply roll the forms over your skin and press down lightly. In seconds you're ready to look your best for hours at a time. And nothing controls cleavage like the Natural Bra with its exclusive Control Clip.

Place the forms farther apart and you go from sexy and sporty – to curvy and voluptuous all with the same Bra. It moves with you so you'll look and feel comfortable. Once you've
